## Hata's Fall in Japan Frustrates U.S. Aims

### Agreements to Open Up Markets Now Unlikely Before G-7 Summit

By Andrew Pollack

TOKYO -- Just when it seemed that a vear of tortuous trade negotiations with Japan was about to bear fruit, the resignation of Prime Minister Tsutomu Hata was likely to leave the United States once again frustrated and unable to reach marketopening agreements before the summit meeting next month of the Group of Seven leading industrial nations.

The political turnoil could divert Ja-pan's attention from the trade talks just as negotiators are set to enter the final, criti-cal week, which will determine whether the two nations can forge agreements to in-crease sales in Japan of foreign insurance policies, automobiles, telecommunications and medical equipment before the G-7

gathering in Naples
The setback forced an uncomfortable change in the Clinton administration's position. Washington's best hope now for a speedy agreement is to count on Japan's bureaucrats, once described as recalcitrant gatekeepers of the economy.

The Clinton administration was counting on political reformers, represented by Mr. Hata and his predecessor, Morihiro Hosokawa, to open Japan's markets by forcing their will on the bureaucrats.

However, Japan is about to get its fourth prime numerer since the so-called trade-framework agreement setting ground rules for the negotiations was signed a little less than a year ago.

It now seems that there will not be a strong political leader in Japan for months, if not years, until a stable new political system evolves to replace nearly four decades of one-party rule by the Liberal

It is possible that the vacancy in the prime minister's office can be filled this week and even possible that Mr. Hata will be re-elected, meaning there will be little loss of momentum.

However, whoever takes the office is likely to be hamstrong by the same coalition politics that weakened Mr. Hata and Mr. Hosokawa. And the new leader is next general election, probably at the end

of the year.

"There aren't too many viable politi-cians around," said a U.S. government official. He said Washington was hopeful

ished debate about the role of nuclear

weapons in a world freed from superpower

In several senses, people involved in this

debate say, the North Korean crisis is emerging as the nuclear cousin of the war

that Japan's ministries have enough authority and leeway to negotiate an agreement on their own and from now on it would just be a matter of ironing out

That could be wishful thinking. Eventually, politicians are called in to make a political decision. "If there is a political vacuum for some time, I think the talks will be halted." a Japanese trade official

After serving only two months as prime minister, Mr. Hata announced his resignation on Saturday just before Parliament was scheduled to vote on a no-confidence motion that would almost certainly have rejected him.

He said the resignation would avert the political vacuum that would arise if he called for new elections, his other option had he lost the no-confidence vote. Many analysts think the struggle among

the various political parties to form a new coalition will leave a vacuum nevertheless, just as Japan is facing economic decisions. In addition to negotiating agreements on specific trade sectors, Japan is sup-

posed to unveil a new package of measures by the end of the month to deregulate its economy, cut income taxes and increase long-term public spending, all measures sought by the United States.

This package could be left incomplete in the political confusion.

If a new party comes into power, it could conceivably throw all the plans of the old regime out the window.

The Socialists oppose parts of the tax reform plan that was advocated by Mr. Hata's coalition. The Liberal Democratic Party might ease up on deregulation to protect traditional constituents like farmers, shopkeepers and construction compa-

By increasing the probability that trade talks will stall, the political confusion could lead to a rise in the yen, which is already pressing 100 to the dollar.

Political confusion also could delay Japan's nascent economic recovery. Growth in the economy would allow Japan to buy more imports and would have the greatest effect in the short run of lessening the country's towering trade surplus.

## search for a new candidate. "There is no reason to bring compromise candidates into the discussion," Mr. Kinkel said in extracts from an interview released before publication on Monday in

the German newspaper Bild.
"At this difficult time, the EU needs a doer," a clear reference to Mr. Dehaene. who is known in his country as the "fixer." Speculation about new candidates was rife, however, as Britain reaffirmed its decision to veto the Belgian leader.

Mr. Dehaene "stands for some ideas about interventionism, about the gradual pushing of power to the center of Europe, which we think are out of date," Foreign Secretary Douglas Hurd of Britain said in an interview with the BBC. "We could find

somebody more appropriate."
The comments highlighted the disarray within the bloc since the semiannual summit meeting of EU leaders broke up in discord over the succession to Jacques De-lors of France on Saturday. Germany has

pledged to solve the issue in time for an extraordinary summit meeting it has called for Brussels on July 15.

Although the 11 other EU leaders eventually lined up behind Mr. Dehaene, including his Dutch rival, Prime Minister

Rund Lubbers, several leaders expressed irritation at what they called a French-German attempt to impose Mr. Dehaene.

Prime Minister John Major of Britain, meanwhile, appeared to leave no room for any buckling when asked if he could be won over to Mr. Dehaene. The answer is no," be said, Prime Minister Silvio Berlusconi of Italy also said the deadlock required a clean slate of candidates.

That led one EU official to declare, "Dehaene is dead." But the few alternative candidates men-

tioned, led by the GATT director-general, Peter Sutherland, also pose considerable obstacles of their own. The Irish government does not support

its native son because he is a member of the opposition party. And a German offi-cial dismissed Mr. Sutherland, a clear freetrade proponent, "because that is what Britain wants." He added, "And when it's an 11-to-1 situation, I don't see how he can be the one that wins."

Prime Minister Felipe González of Spain, a longtime favorite of the German chancellor, Helmut Kohl, quickly ruled himself out.

Mr. Kohl "has a problem," said Mr. Lubbers, who did little to conceal his bitterness at having been undermined by the German leader, "He has to find somebody or convince John Major." Beyond the personal bumiliation to Mr.

Dehaene and Mr. Lubbers, the leadership stalemate presented an embarrassing image of European discord that overshadowed the meeting's achievements: a new trade and political partnership with Rus-See EU, Page 2

## **Ex-Communist** Wins Runoff in **East Germany**

By Stephen Kinzer New York Times Service HOYERSWERDA, Germany — For

the first time since unification in 1990, a former Communist has been elected mayor of a German city.
With 51 percent of the vote, Horst-Diet-

er Brähmig of the Democratic Socialists, as the former Communists call themselves, was chosen Sunday as mayor of the East German city of Hoyerswerda, 130 kilome-ters (80 miles) southeast of Berlin. His opponent, Klaus Naumann, a Social Democrat, had been supported by every other party.

The election was a runoff, made neces-

sary after no candidate won a majority in the first round two weeks ago. The incumbent mayor did not seek re-election. Mr. Brāhmig's victory capped a strong political surge for the former Communists.

In the exphoria that followed the collapse of East German communism four years ago, many analysis assumed the Communist Party would quickly die. But in recent elections the Democratic Socialists have sharply increased their strength in eastern states.

The former Communists bave won sympathy in part because they are an exclusively eastern party that can articulate eastern grievances without considering the sentiments of voters in the West. Their town councillors have also won a reputation for hard work on local issues.

Former Communists bave also rebound-

Colony Apathetic on Patten Reforms

HONG KONG (AP)—Governor Claris Pattern appeared to be facing widespread public apathy as his bilineprint for broadening democracy in Hong Kong headed for a tone Wednesday. Polls suggest he is losing ground in his 20 month struggle with Bening to reform the election system before China's takeover in 1900. An opinion poll published Sungay showed 50 percent decare which package of reforms is indopted for the 1900 municipal and 1995 legislative elections. Hong King's last under Beitschnule. Fourteen percent said they backed Mr. Pattern's reforms, and 13 percent preferred the pro-business Liberal Party's milder package. The survey was in the Sunday Monning Post.

It followed publication Saturday of a poli by the University of Hong Kong in which 90 percent said they no longer understood what was at stake in the vote.

Malaysians Warned on Rights Forum

former Portuguese colony.

## British Art-Publishing Innocent Put the Heat in Frieze

By Erik Ipsen

LONDON - Five years ago, with the recession raging and employers firing. Matthew Slotover had a brain wave: Instead of joining his friends in the jobs line, the young Oxford graduate decided he would make his own job. He decided to found an art magazine.

Others, almost all others, begged to differ. "I told him it was a stupid idea and that he ought to get a job," says Amanda Sharp, a childhood friend and former neighbor in Knightsbridge.

Mr. Slotover's father, Robert, was doubtful, "I was delighted he was interested in something," he said, "The strange thing was that he bad not shown very much interest in art as far as we knew, but then again, he is a very quiet sort of person.

Matthew Slotover, whose résumé at the time boasted only two part-time jobs. waiter and file clerk, bad little to bring to the party. That was then. Five years later, behold Frieze, Britain's leading contemporary art magazine and one of the world's hottest new art publications.

Every few years a magazine comes out that somehow feels the pulse and has a look and a writing style that is more relevant to new art than any other magazine, and right now that magazine is Frieze," said Jeffrey Deitch, a New York art consultant. He attributes Mr. Slotover's success in part to a triumpb of naïveté over the realities of magazine puhlishing.

The success rate for any new magazine is poor. For art magazines, more so, and for a magazine chronicling contemporary art, a form familiar to few and liked hy fewer, it is nearly nil. Yet, with a growing worldwide circulation of 30,000 and a clutch of steady advertisers drawn from galleries from Stockholm to Santa Fe, Frieze has done more than survive.

With its reputation for spotting new talent and with its spartan cover shots, ranging from butterflies to bananas, it has become an important and resolutely

quirky fixture on the cutting edge of the international art scene.

In the process, Frieze bas gone from a mere chronicler of what it covers to a shaper of it: a voice strong enough to help set the agenda. "In a very brief time, it has become quite influential," said Helena Kontova, editor of Flash Art magazine in Milan.

Frieze has also found itself, much to Mr. Slotover's discomfort, knee-deep in the art establishment.

"We are not the dog pulling on the leg any more, but part of the leg itself," he laments. As proof, he cites the mail.

which has gone from letters of support for a brave new venture to what he characterizes as "criticisms of an established organization.

In their small office above a music store off Charing Cross, Mr. Slotover and his two co-editors still dress the part of rebels, avoiding ties and crisply creased pants in favor of T-shirts and jeans. But there is no mistaking Mr. lotover's new clout.

"Frieze has become an ohligatory stop for curators coming bere from the Continent," said James Roberts, press officer at Lassen Gallery in London. "They stop hy and ask Matthew what is going on."
Mr. Slotover's status as arhiter of the London art scene was formally enshrined last year when be was tapped to screen Britain-based artists for the Venice Biennale art fair.

What is odd about all this is bow quickly Mr. Slotover has made his transit from obscurity. Five years ago, he came to his new venture with only a degree in experimental psychology from Oxford to show for his 20 years of existence. Yet, when the pilot issue of Frieze hit

the stands and sold out promptly, two years after the idea had jelled in his mind, few people were less surprised than Mr. Slotover. For him, Frieze was

no random shot up a darkened alley. Some people, the elder Mr. Slotover said, prefer to launch a project and then learn by their mistakes. Others research the guts out of things, "and get it right the first time." Mr. Slotover, a self-pro-fessed launch-and-learn type, puts his eldest son in the second camp.

Consistent with that approach, one of Matthew Slotover's first acts as a prospective magazine owner and editor was to take himself off to business school for a six-month immersion in receivables. cash flow, bad debt, et al. He followed that up with courses on magazine production at the London College of Print-

In his spare time, Mr. Slotover began assaying the competition in the reading room of the Knightsbridge library and comparing what he was reading about in art magazines and in the general press with what he was seeing in London art schools and galleries. In the gap between the chronicled reality and the empirical variety, he spied his opportunity. "The way other media deal with contemporary art is basically from a position of huge ignorance," Mr. Slotover said.

The problem was that Frieze's three founding editors could hardly boast of being authorities on the subject themselves. None of them bad yet turned 25 and only one of them, Tom Gidley, had

For Mr. Slotover, whose childhood loves were pop music and computers, the barbingers of success were that be had always been a year or two ahead of his age group in school and that he had always excelled in organization.

husinessman bas discovered diaries purporting to have been written by Mussolini, the Sunday Telegraph said. The five volumes covering the years 1935-39 have been missing for nearly 50 years and could be one of the higgest publishing finds of the century, the paper added.

"Historians and document experts who bave examined them believe them to be the work of Il Duce," the paper said.

According to the diaries, Mussolini was an unwilling partner to Nazi aggression in the 1930s and tried to act as a brake on Hitler, whom he feared and despised. He also suffered from depression and was lonely and distrustful.

The newspaper quoted Denis Mack Smith, a Mussolini biographer, as saying that "the manuscript looks absolutely genuine."

## THE AMERICAS / PILING ON

## Christian and Political Far Right Lead Vitriolic Charge Against Clintons

By Erik Eckholm New York Times Service

NEW YORK - For four successive weeks last month, viewers of the Reverend Jerry Falwell's "Old Time Gospel Hour" on cable television were treated not to the good tidings of Jesus but to accepts from a videotape in which President Bill Clinton was accused, among other dark deeds, of cranging for the murder of on A steepers investigated. arranging for the murder of an Arkansas investiga-

tor who supposedly had proof of his trysts. In the televised excerpts, Gary Parks, son of the investigator who was shot to death last fall by unknown assailants, says, "I think Bill Clinton had my father killed to save his political career." He offers no supporting evidence.

Reverend Falwell, who described Mr. Clinton as "the most radical and controversial president in our nation's history," aggressively promoted the videotape on his program, calling it an expose featuring "the people who know the truth."

His organization says it has sold tens of thou-

sands of the videotapes for "donations" of at least \$40 plus \$3 for shipping. The accusation of murder may be the most startling example of the harsh attacks being direct-ed at Mr. Clinton and his wife, Hillary Rodham Clinton. But the spread of Clinton dirt and rumors of Clinton dirt have become a virtual industry, prompting the president on Friday to complain bitterly about "scurrilous and false charges" and 'violent personal attacks.'

The roughest assaults are coming mainly from fundamentalist Christian leaders, who portray the Clintons as anti-Christian, and from arch-conservative pressure groups that raise funds through

But the invective has also reverberated on conservative radio talk shows around the country, where the president is called a "gay lover" or a "pot-smoking draft dodger" and callers speculate on his wife's sexual orientation.

The Reverend Pat Robertson's Christian Coalition called Mr. Clinton's inauguration a "repudiation of our forefathers' covenant with God."

On his "700 Club" cable television show. Mr. Robertson has broadcast an interview with Paula Corbin Jones in which she graphically described her accusation that the president made sexual advances to her.

Also on the show, Mr. Robertson has promoted conspiracy theories about the death of Vincent W. Foster Jr., the White House aide and former law partner of Mrs. Clinton's who committed suicide last July, asking: "Was there a murder of a White House counsel? It looks more and more like that."

In a fund-raising letter to more than 100,000 donors, Floyd Brown, chairman of a thriving non-profit group called Citizens United, said he had proof that Mr. Clinton was now engaged "in a massive cover-up and conspiracy to obstruct justice." He asked his members to fill out an "emergency survey on the impeachment" of the presi-

What these varied groups seem to share is a visceral dislike of the Clintons, along with some of their policies, such as the bealth care plan and the proposed easing of rules on homosexuals in the military.

Many of the attackers also tend to revel in the tawdriest accusations of financial and sexual misconduct, often mixing established fact with lurid

The president and his wife have condemned what they see as incessant assaults on their charac-

"I don't suppose there's any public figure that's ever been subject to any more violent personal attacks than I have, at least in modern history, anybody who's been president," Mr. Clinton said Friday on a St. Louis radio program.

Harsh attacks on the occupants of the White

House are not new, and neither is a siege mentality. President Lyndon B. Johnson questioned the motives of demonstrators who called him a killer for his Vietnam policy while President Richard Nixon, long reviled by some Americans, went so far as to compile an enemies list.

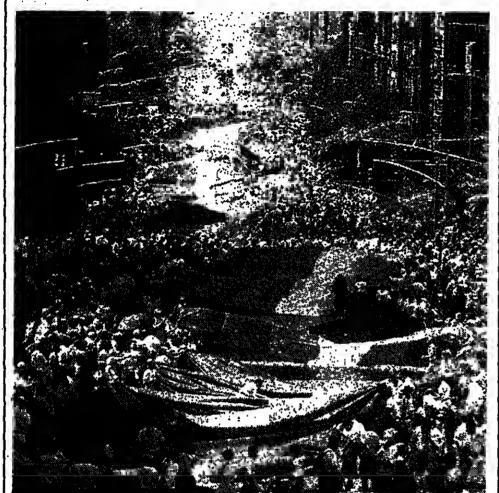

Over the last decade, liberal groups raised money by assailing Presidents Ronald Reagan and George Bush. But they seldom voiced as much personal venom as some groups are now directing at the Chintons, experts on the presidency say.

M Clinton Assails Critics

President Clinton accused conservative talk show hosts and Christian commentators of using disinformation and "personal demeaning attacks" against him to create a culture of cynicism that is thwarting his efforts to govern, The Washington Post reports.

One of the president's advisers described him as alternating "between despair and rage" at not only radio talk show hosts such as Rush Limbaugh and Christian commentators such as Mr. Falwell, but also at the mainstream press's "propensity to analyze instead of report, to rush to judgment on everything and to generally not let him talk to the American people before you dump on him."

Mr. Clinton's made his remarks in an telephone interview aboard Air Force One en route to St. Louis on Friday.

#### Away From Politics ....

 Two raild earthquakes shook the San Francisco area, but there was no scrious damage. The U.S. Geological Survey said a quake measuring 29 on the Richter scale was felt three miles (five kilometers) north of Berkeley at about 1:30 A.M. A larger quake, measuring 4.2 and centered on the same spot, followed 12 minutes later.

• A Roman Catholic priest was acquitted of scannily assenting an 11-year-old altar boy, The Reverend Paul Manning, 54, testified that he and the boy had been engaged in horseplay and had been fully clothed. • A suspect in a drug-related killing was mis-

takenly released from San Ouentin Prison just hours before he was indicted for murder, the Marin Independent Journal reported in San Rafael, California. The suspect, Adam Leroy Caris, 28, left prison May 31 and is still at large, the newspaper said.

 The owner of a jewelry store killed a robber and critically injured a suspected accomplice, the police in the New York borough of Brooklyn said. The store owner, Leonid Rosenthal, 52, has a license to own the semi-automatic pistol and will not face any charges, the police

## Simpson Won't Plead Insanity, New Attorney Says

LOS ANGELES — O.J. Simpson will June 12 along with Mr. Goldman, 25. not plead insanity when he goes on trial for murder. F. Lee Reiler Control of the contro for murder, F. Lee Bailey, one of his lawyers, said Sunday.

Mr. Bailey, a member of Mr. Simpson's high-powered legal team, criticized prosecutors for predicting last week that the former professional football player would ultimately admit to the double murder of Nicole Brown Simpson and a friend of hers, Ronald Goldman.

In an interview with CBS television. Mr. Bailey maintained that Mr. Simpson had a sound alibi and had said nothing to implicate himself.

But Mr. Bailey said it was "very ques-tionable" whether Mr. Simpson could get a fair trial in light of the extensive publicity about the case.

As the legal maneuvering moved into high gear, new reports emerged about Mr. Simpson's sometimes violent relationship with his 35-year-old former

In an electronically enhanced tape of an emergency call by Mrs. Simpson in October 1993, Mr. Simpson can be heard threatening her and accusing her of having had sex in her living room while their children slept nearby, ac-cording to broadcast news reports.

The tape, parts of which had been inaudible when broadcast last week, was part of the publicity that caused the supervising judge of the Superior Court, Cecil J. Mills, to disband a grand jury that had been considering an indictment

His action paved the way for a preliminary hearing on Thursday in which the prosecution must bare much of its evidence and Mr. Simpson's defense team will be given a chance to cross-examine

and try to discredit key witnesses. Prosecutors need only present enough evidence to persuade a judge to bind Mr. Simpson over for trial.

after leading police on a bizarre chase. He pleaded not guilty last week and is being held without bail under a "suicide watch" in an isolation prison cell.

District Attorney Gilbert Garcetti has maintained that the authorities have a strong case, but doubts have been raised about the existence of physical evidence that police sources had described in leaks to the media.

Mr. Garcetti has been widely accused of seeking to try Mr. Simpson in the press, even predicting that he would ultimately use the insanity defense.

Mr. Bailey, who gained fame defend-ing the publishing heiress Patty Hearst and Albert DeSalvo, who was known as the "Boston Strangler," denied Sunday defense is 'If you say I did something that's criminal, you prove it.'

Mr. Simpson, 46, was arrested June 17 was vilified by both the press and prose-fter leading police on a bizarre chase. cution in 1954," said Mr. Bailey, referring to the Cleveland doctor who was convicted that year in a highly publi-cized trial for killing his wife.

After Dr. Shephard spent nine years in fail. Mr. Bailey won a second trial for him and secured an acquittal. In a taste of what television viewers

can expect at the bearing, a member of the disbanded grand jury said the panel had been shown pictures of the crime scene. "It was shocking," an unnamed juror told the Los Angeles Times. "I couldn't even eat dinner that night."

After a series of miscues and missteps

that led to finger-pointing between pros-ecutors and the police, Mr. Garcetti shook up the prosecution team. On the defense side, Mr. Simpson's

that such a defense would be used. "The lead lawyer, Robert L. Shapiro, has also hired a Harvard University law professor, Alan Dershowitz, who successfully "It's the most outrageous prosecution defended the socialite Claus von Bulow conduct I've seen since Sam Shephard on charges of murdering his wife.

#### No Racist Intent In Altered Photo, Magazine Asserts

New York Times Service NEW YORK — In response to the barrage of criticism about Time magazine's cover portrait of O.J. Simpson, James R. Gaines, the managing editor, posted a message on a computer bulletin board stating that "no racial implication was intended,

by Time or by the artist." The blurry cover portrait of a darkened and unshaven Mr. Simpson is a doctored version of a Los Angeles Police Department photograph taken after his arrest June 17

Some critics said that by darkening the photo of Mr. Simpson and thus giving him a more sinister appearance. Time-

was guilty of racism.
"It seems to me you could argue that it's racist to say that blacker is more sinister, but be that as it may: To the extent that this caused offense to anyone, I obviously regret it," Mr. Gaines said in his message

who already has begun building an organizational base in his state.

Close behind Mr. Alexander came Mr. Gramm, who polled just under 15 percent and immediately demonstrated that he has been practicing something indis-

pensable to any presidential candidate:

explaining why he was the real winner even though he had not collected the

most votes. The answer: He polled more

than half as many votes as Mr. Dole.

Navy Scuttles Appointment WASHINGTON — The Defense Department has withdrawn its choice for commander of American forces in the Pacifie because misgivings about the nominee's handling of sexual harassment and other issues threatened to bold up Senate confirmation at a time of increasing tensions in the Korean Peninsula.

The current head of the Pacific Command, Admiral Charles R. Larson, is scheduled to retire in the next few weeks to become superintendent of the Naval

In the spring, President Bill Clinton nominated Admiral Stanley R. Arthur, who as the vice chief of naval operations

is the navy's No. 2 admiral, to replace Admiral Larson.

The opposition centers on his approval of a female helicopter pilot's dismissal from flight school; his recommendation that Licutenant Paula Coughlin, who was assaulted at the Tailhook Associa-tion convention, repay an \$18,000 bonus after she left the navy, and his investigation of a fire aboard an aircraft carrier in

#### Quote/Unquote

Marlin Fitzwater, who was spokesman for Presidents Ronald Reagan and George Bush, on the appearance of con-fusion in President Bill Clinton's foreign policy: "In the absence of policy, too often your communications are swept up in response to questions and they always relate to action and threats. All we've seen is either Gore or the president making threats of one kind or another. My advice to them would be to settle on two or three brief points that make a case for our policy and, whatever the question, repeat those points and reassure the pub-

lic they are staying on top of the issue."

## Hata's Choice: Quit to Save Reform Movement

By David E. Sanger

New York Times Service
TOKYO — To save the reform movement he helped ig-nite, Tsutomu Hata bad no choice but to resign as prime

His two-month experiment running the world's secondlargest economy with a minor-ity government had failed. Without the cooperation of the Socialist Party, which in a fit of pique split with Mr. Hata's govcrament the day he took power, there was no hope of pressing for his broader agenda: economic deregulation, new sales taxes and a far more active role in security issues like the North

Korean nuclear standoff. His coalition's many divisions boxed him in. A no-confidence vote, which was an bour from passage at the moment he quit early Saturday, would have

campaign that would only have extended the chaos. So in the end, Mr. Hata and

his close political ally and strategist, Ichiro Ozawa, chose to risk everything, including control of the government, in re-turn for a chance to once again attempt a realignment of Japan's political forces. Their bope is that Mr. Hata's

resignation will trigger another political earthquake of the kind that shook the country almost exactly a year ago, when they engineered a rebellion against the Liberal Democratic Party. which had ruled four decades. If they fail in the next few days, the result may well be that

power as the higgest force in a new, if weak, coalition, The Liberal Democratic Par-

the Liberal Democrats return to

vote, Japan would bave been try to seize the moment, telling plunged into a 40-day political reporters that his party would be "responsible for settling the political situation" now that Mr. Hata had abandoned ship.

He said be was already talking to the Socialists — the tradi-tional enemy of the Liberal Democrats over the last 40 years - about stitching together a policy statement that they could agree upon. There was even talk that the Liberal Democrats might back the bead of the Socialists, Tomiichi Murayama, for prime minister, a proposition that would have been unthinkahle a year ago.

Mr. Hata and his allies seem to be hetting that such a marriage of convenience would turn stomachs throughout the country in the next few days.

They are wagering that it would imperil a series of reonly worsened the paralysis, his ty president, Yohei Kono, made forms, including the new elecaides said. If he bad lost the it clear Saturday that he would tion system that narrowly forms, including the new elec-

passed last year, perhaps reuni-fying the forces that gathered their strength to fight the Liberal Democrats and took power in Japan last year amid so much

Mr. Ozawa expressed his desperation the other day when he said he was willing to get down on all fours and "bark like a in office awhile, because no one dog" if it would help assemble a could get anything done if they majority in Parliament.

This seems like a defeat to Mr. Hata and Ozawa and the reform efforts, and it may prove to be that." Takashi Inoguchi. a professor of political science at Tokyo University, said shortly after Mr. Hata's resignation.

But it also may be deceiving. I think they believe that the pressures from the outside world are forcing Japan to change, and change in the direction Hata and Ozawa bave described. They think their time will come.'

Ozawa has defined his image of the country's future more clearly than any other politician, arguing that the 50th anniversary of the end of of World War II makes this a perfect time to turn Japan into a "normal na-tion," with normal consumer prices, politicians who call the shots instead of bureaucrats. and a military that can join international peacekeeping ef-

It is an agenda that steps on a lot of toes and social taboos, and many members of his coalition have argued with it, espe-cially over Japan's military role. The differences with the So-

cialists have been the greatest, and Ozawa has not made things easier by showing his contempt for them, making it clear that he wants to throw them overboard as soon as be no longer needs their votes.

But that will take several years, everyone agrees, and sev-

two mainstream conservative parties, each able and ready to govern.

Mr. Hata's aides winced in April when the chancellor of Germany, Helmut Kohl, told met a new Japanese leader every few months

The Japanese people are be-ginning to feel the same way. Most liked Mr. Hata, an affable man and skilled political insider with a reputation for relative political cleanliness.

His approval ratings just before his resignation hovered around 50 percent, not bad by

## without guestion, Mr. Israel Says **Had No Aid**

By David Hoffman

Washington Post Service
JERUSALEM — The Israeli commission that investigated the Hebron mosque massacre concluded in a report Sunday that a militant Jewish settler. Dr. Baruch Goldstein, acted alone in killing 29 Muslim worshipers at the Tomb of the Pa-

triarchs earlier this year.
In a 350-page report that appears likely to spark further debate, the five-man commission decided not to recommend disciplinary action against anyone in the incident.

The panel said no one could be blamed for having failed to foresee the possibility of such a massacre. The conclusion was immediately hailed by Israeli government ministers who bad feared the commission would call for action against highranking officials.

The panel said it was "an unfortunate coincidence" that all the security forces were not on duty when the massacre occurred. But the commission criticized what it described as lax discipline and malfunctioning security systems at the site. which has long been a point of friction between Jewisb and Muslim worshipers.

The panel stopped sbort of tackling broad issues raised in the aftermath, such as whether Jewish settlers should continue to reside in the middle of predominantly Arab Hebron. Nor did the report address longstanding conflicts over Israel's occupation of the West Bank and Gaza Strip, some of which emerged in the bearings.

Rather, the panel focused on details of the crime and how it to preserve its ambiguous nucould be prevented in the fu- clear weapons status in defiance ture. It called for setting up a disputed tomb, including sepa-rate worship areas for Muslims and Jews; a new special police unit for the tomb; and barring all civilians from carrying

weapons into the structure. The commission also urged the army and the police to clarify the rules for opening fire following testimony that some soldiers and police officers were under orders not to shoot at

Israeli ministers enthusiastically praised the report and voted to implement its recommendations.

"Certainly, nobody could say it's a whitewash," said Shimon Shetreet, minister of economics and planning. "It's a very hon-est, good faith, in-depth invessi-gation, the results are that there is no bad faith, no personal blame that could be attached to a specific person."

The army's chief of staff, Ehud Barak, said, "The murder was the action of a single individual. They cannot find anyone

who could be blamed for being unable to expect it, or predict it in advance. Jewish settlers were also hap-

py that the report did not cast blame on them as a group for Dr. Goldstein's actions, Elyakim Haetzni, a leader in Kirvat Arba, the settlement adjacent to Hebron, said the report was "fair" and "balanced" and avoided "the Jewish weakness for self-hatred." The commission found that

Dr. Goldstein, who was killed by survivors immediately after the shootings, had planned his action. He made a point of pay-ing off all his debts. The family car was registered in his fathers' name, the report said.

late 1980s.

confrontation. France has a long track record of supporting the Hutu-

da Patriotic Front, in control of about two-thirds of the country, regards the French troops as invaders who seek to prop up the government. It has warned

French may find themselves confronting their erstwhile Hutu allies, since their mission

Front was based before it launched its campaign in 1990, for not reining in the rebels.

By extension, France also blames Britain for not pressing Uganda to do so. French policymakers seem not to realize that the rules have changed and that the old spheres of influence are not what they once were.

French interventions were For many of them, indepen

Sometimes the intervention was proclaimed for a more ate Europeans from danger, for example. This was the case in 1978 when Zaire's Shaba Province was invaded by former Katangese rebels, and the French and Belgians sent in paratroopers. The effect was the same: President Mobutu Sese Seko

was given another lease on life. Not always did the intervention favor the status quo. When Jean Bedel Bokassa of the Centrai African Empire became too much of a political liability in September 1979 — he was accused among other things of murdering schoolchildren in jail cells — the Foreign Minis-try dropped him and sent in troops to install someone else.

Typically, when France intervenes, its prestige does not plummet among African countries; quite the contrary, it rises. In Western capitals, Paris is taken seriously again, as an ally who can act in the vast swath of Africa that has four times as many French speakers as France.

And as for public opinion at home, as one Western diplomat in Paris put it, "Here, the government has explaining to do when it doesn't intervene to protect French interests."

The answer to the riddle of why Paris can get away with actions that others dare not think about lies in the curious. symbiotic relationship that France nurtures with its former

more like a graduation into ar elite circle, an entry into a club. - a sedate assemblage of the high-minded intent - to evacu- privileged held together by language, love of French culture and the conviction that Paris was the center of the nniverse. There was a Faustian bar-

gain. Allow in French technocrats to run state enterprise and companies, trade mainly with the mother country, and sign a military assistance pact and you will be secure. France will prop up your economy by giving you the African franc, which is supported by the French treasury, and rush its army to your side if trouble develops.

Troublemakers like Ahmed Sekou Toure, the ranting Mara-ist who ruled Guinea until 1984 need not apply.

#### France Asserts Patrols Can't Protect Refugees

PARIS - French milita y patrols have failed to halt the threat to refugees in Rwand and their top commander sa Sunday they were studying bow to provide permanent protection without setting up base the country.

The soldiers carried out m. reconnaissance operations fro bases in Zaire and spotted to more refugee camps, the Frencioint chief of staff, General

ques Lanxade, said in Paris. The troops have been gor into western Rwanda fre Zaire to find refugees and orc-the militiamen who terroriz them to dismantle roadblo and go home.

General Lanxade said no shot had been fired so far in four-day-old operation, but tremists kept threatening reges as soon as the Fiturned their backs.

"We are maintaining gree of security without it units stay long" in Rwand said. "It poses the proble how resmanent is the same how permanent is the sective are providing."

The state of the s

or il joke.

Ukraine Unlikely to Rock Boat

Mr. Kuchma, 55, has been trying to move toward the center from his ethnic Russian base in eastern and southeastern Ukraine, speaking in his newly learned Ukrainian and soften-ing earlier calls for Kiev to join the ruhle zone, a Russia-based economic framework.

But he stresses the need for a weak and impoverished Ukraine to live realistically with Russia, on whom it depends for most of its trade and energy.

He wants free trade between the countries — without speci-fying what that would mean for Ukraine's Soviet-style subsidies and controls over prices and foreign exchange — and a swap of the Ukrainian half of the Black Sea Fleet for fuel and debt forgiveness.

Attacked sometimes as a "traitor," Mr. Kuchma portrays himself as a patriot who values realism over nationalist symbols. It is Ukraine's unreformed economy and weak currency, he suggests, that has undermined the state and created the desire in eastern Ukraine and Crimea for closer ties to Moscow.

But Mr. Kravchuk has shrewdly positioned himself as the best guarantor of Ukrainian independence, stability and civpeace.

Through his speeches and especially the newspapers and state television, which he dominates, he avoids talking about the economy and instead accuses Mr. Kuchma of trying to un-dermine Ukraine's fragile inde-

■ Heavy Fighting in North Bosnian government forces made substantial gains against rehel Serbian positions in northern Bosnia, Agence France-Presse reported Sunday from Sarajevo, quoting a UN

Protection Force spokesman. The fighting, in violation of a truce agreement, has been concentrated around Mount Ozren, where the Serbs have evacuated several villages in the face of the Bosnian offensive, Commander Eric Chaperon said.

United Nations observers have had to follow the progress of the fighting mostly from the ir, since both sides have denied them access to the region.

#### Planned a Mosque Blast Reuters

TEHRAN - Iran said it had arrested a member of the Iraqibased opposition group Mujahidin Khalq who it said had been planning to bomb a mosque in Iran, state-run Tehran radio reported on Sunday.

The radio said the suspect had given the authorities information on a man who they said was involved in the bombing on Monday of a shrine in the Muslim holy city of Meshhed in which 25 people died.

### China Sets **Price Rises** To Bolster Its Harvest

By Patrick E. Tyler

New York Times Service

BEIJING — Fearing a poor harvest, which could add to social instability in China, the Communist Party leadership has approved price increases of 40 percent for wheat, rice and other grains.

The price of grain, particular-ly of wheat and rice, is the most sensitive item in the household hudget for most of China's 1.2 billion people. The price increases, approved this month, represent an urgent attempt by China's leaders 10 enlarge the harvest by making farming more lucrative.

Officials said top leaders had decided not to publicize the new price increases, fearing that they would touch off panic huying across the country. Staterun news organizations were told not to report the increases. Chinese journalists said.

The increases followed an appeal to farmers by Deputy Prime Minister Zhu Rongji last month to increase grain pro-duction to forestall a food crisis. Official projections showed a 12 percent decline in grain crop acreage sown this summer.

Millions of farmers are leaving the land to find jobs in towns and cities because their income cannot compete with even low-paying construction jobs in many of the fast-devel-oping coastal provinces.

#### **Fugitive Writer** In Bangladesh Seeks U.S. Help

DHAKA, Bangladesh Taslima Nasreen, a fugitive a feminist writer facing an arrest. warrant and a death decreefrom Muslim fundamentalists, has asked for asylum in the United States, newspapers in Bangladesh said Sunday.

She has requested the international women's committee of the writers' group PEN, based in New York, to lobby the U.S. government, the official Banladesh Times said.

The independent daily New Nation gave details of her request to PEN.

Muslim fundamentalists were outraged when Miss Nasreen, 31, was quoted by India's Statesman newspaper as saying that Islam's holy book, the Koran, should be "revised thoroughly." She has denied making the comment.

The government ordered her arrest after The Bangladesh Times reprinted the Statesman article on June 4. A fundamentalist leader, Mufti Nazrul Islam, later offered a \$2,500 reward for her death,

#### Talks With North Korea

President Bill Clinton's announcement on Wednesday came as a relief: North Korea had persuaded him that it was suspending its nuclear program for now; consequently, the United States would resume high-level talks with the North on July 8. Mr. Clinton paid tribute to Jimmy Carter's mission to Pvongvang: "It is the

beginning of a new stage in our efforts to pursue a non-nuclear Korean Peninsula."

Now that nuclear diplomacy with North Korea is finally getting back to the negotiating table where it belongs. President Clinton has to been it there. dent Clinton has to keep it there. He can accomplish that by cutting through the bickering in his own administration and putting his personal stamp on a sound U.S. negotiating strategy. To do that he has to be clear in his own mind about the basic objectives: first, to make the suspension permanent by dismantling the North's nuclear program: second, to learn as much as he can about North Korea's past efforts to divert plutonium; third, to curb North Korea's missile exports.

The president's immediate task, however, is to design a convincing package of inducements. The package would provide new nuclear reactors to replace the ones the North now has. It would promise full diplomatic recognition as well as a peace treaty formally ending the Korean War. And it would detail some of the economic

benefits to flow from a new relationship. The North's commitment to allow inspectors to monitor its nuclear reactor and reprocessing plant will ensure as

least for now, that additional plutonium -enough to build five bombs -will not be extracted from the spent fuel rods now stored in cooling tanks at Yongbyon, But these fuel rods must be disposed of soon. That is an urgent task for the talks.

The North has also agreed not to reload its reactor for now, keeping it from generating more spent fuel that could be turned into plutonium for bombs. The task for the talks is to get North Korea to agree not to reload ever again, and to get an effective ban on reprocessing. That ban could be worked out in talks between the two Koreas. So it is good news that President Kim II Sung is arranging to meet South Korea's president.
Perhaps the trickiest task facing U.S.

negotiators is finding out how far along Pyongyang's nuclear program actually is. The North has not yet allowed interna-tional inspectors to determine whether it extracted a bomb's worth of plutonium in 1989, but it bas indicated that it would accept special inspections to get at the

past as part of an overall settlement.
The Carter mission was a big plus for both sides. The very presence of a former president of the United States reassured Mr. Kim that Washington was sincere about improving relations.

Mr. Carter helped Mr. Clinton regain

his footing. Now the president needs to put (ogether a persuasive diplomatic package to coax North Korea to become truly nuclear-free.

- THE NEW YORK TIMES.

## Wanted, a Cool European

cise, its politicians have been given another chance to ask themselves what sort of Europe their peoples really want.

There was nothing elegant about Sat-urday's British veto of Jean-Luc Dehaene as the next leader of the European Commission. It has tossed the Union into ver another crisis. Britaio's prime minister. John Major, did it at least partly for motives of domestic political conve-nience. Nevertheless, the result is right. Mr. Dehaene was the wrong man for the

job, on two counts. First, he was too obviously being pushed into the post on a sudden German-French handwagen. The announcement at Mulhouse less than a month ago that Mr. Dehaene was the choice of Helmut Kohl and François Mitterrand raised eyebrows in places well beyond Britain. As late as Friday, Mr. Dehaene had the backing of governments responsible for less than twothirds of the Union's population.

It has always been accepted that a new leader of the Commission must be chosen by unanimity. The case for consensus is even strooger at the present stage of the Unioo's life, when it has to choose between two very different roads into the future. At such a moment, an attempt by one group of governments to hustle evleadership would be liable to return the

Union to disunion. The other argument against Mr. Dehaene is that he too clearly prefers one of those two roads. He is not, unlike the departing Jacques Delors, an ideologue of a federal Europe. He is a fixer more than a philosophizer. But he plainly favors an even stronger central government for Europe. His own country. Belgium.

The European Union has been given a has less sense of a separate national identity than any of the Union's other 11 tity than any of the Union's other 11 members. The continuing reluctance of many ordinary Europeans to move further along the federal road was underlined, yet again, in this month's elections to the European Parliament. To put a man of Mr. Dehaene's convictions at the top of the European bureaucracy would have seemed an attempt to ride rough-

shod over that reluctance.

So who does get the job? Germany and France can hardly propose Mr. Dehaene again at the new conference summoned for July 15, because Mr. Major says he will not retreat from his veto. His own preferred candidate, Leon Brittan, is almost certainly out. The original favorite, Ruud Lubbers of the Netherlands, would still make a good Commission leader, but to give him the post now would need a switch by Messrs, Kohl and Mitterrand.

Otherwise it will have to be a new contender capable of collecting the consensus. There is Peter Sutherland, who comes from strongly pro-Europe Ireland, has run GATT well and can probably overcome the current coolness toward him of Ireland's prime minister. There is Renato Ruggiero, a respected Italian exminister long familiar with Brussels. And there is a rich collection of bright Frenchmen whose eyes may be turning eryhody into a hasty decision about a toward the Union's politics: Michel Ro-

ably even Edouard Balladur. The next president of the Commission should be a man who wants to widen the Union eastward, to take in the new democracies of Central Europe, but who does not seek an overceotralized Union. That is the combination the people of Europe seem to prefer, and it is their chief

civil servant's job to provide it. INTERNATIONAL HERALD TRIBUNE

## Electric Cars Aren't Ready

Electric cars offer one very important advantage. Unlike cars that run on gasoline, they produce no smog to pollute cities air. But they also have one serious disadvantage. They don't exist - not, at least, at a stage of development that allows people to use them as they now

typically use their cars. They have the look of the future about them, and a lot of companies are working on technologies to extend their range. California will require the automobile companies to begin selling them by the end of the decade. The Environmental Protection Agency has to decide by November whether to impose a similar rule on the East Cost from Maine down to Northern Virginia, a strip of states that are under federal orders to get their smog levels down. Hearings are under way.

Requiring a certain percentage of cars sold to be electric is an idea with a lot of appeal. Last winter the Northeastern states voted. 9 to 4. in favor of recommending it to the EPA.

Appealing or not, a legal requirement is unwise. Mandating technological progress by law has been tried many times in America's efforts to protect and improve the environment. Sometimes it works. sometimes not, but the principle is dangerous. It is much more efficient for government to set the standards that an industry has to meet - in this case, auto emissions standards - and let the manu-

facturers figure out how to meet them. That is what one advocacy organization, the Environmental Defense Fund, has proposed. It wants less smog, but it would give automakers the flexibility to meet ughter limits however they can do it most effectively. That might even include buying pollution rights from other indus- a power company, for example that had found cheaper ways to cut down

its own emissions of those same gases. Suppose the EPA mandated electric cars in the Washington region, and they were to develop slowly at high cost. To make the required sales, the manufactur-ers would have to subsidize them by raising the prices of other cars. The economic burden on consumers could be huge.

The auto companies say that the electric car will be extremely expensive. If they are right, the market needs the latitude to turn 10 other solutions while the engineers continue to work on batteries. But if the electric car can be built as rapidly and inexpensively as its supporters believe, ao legal mandate will be needed. It will emerge naturally as the solution for smog-ridden cities.

## The World Trade Organization Is Unlikely to Work

By Karel van Wolferen This is the first of two articles.

T OKYO — One of the great delusions of the day is the belief that the impending creation of the World Trade Organization will produce a surge in international trade.

Received wisdom in America has the WTO turning the results of the Uruguay Round of trade talks under the old, looser GATT arrangement into a giant ousb for unfettered international competition, bringing major benefits to American consumers and businesses. New mechanisms for resolving trade disputes are advertised as shielding future generations against pernicious protectionism. A boost in global prosperity is around the corner, if only special interests wishing to prevent U.S. ratifica-tion can be kept at bay.

Were it but true. More likely is a hastening of the day when bilateral reprisals will threaten to end the relatively free international exchange of economic opportunities that GATT was designed to promote. For the assortment of trade negotiators and GATT officials who rushed the Uruguay Round to a putatively successful conclusion have danced around the biggest obstacle to a smoothly

functioning trade regime — the incompatibility of institutions that characterize the economies

main participants. Failure to deal with this incompatibility has long nullified the intended rewards of trade negotiation and has diminished GATT as an effective guardian over the laudable effort to promote a maximum of consumer welfare around the world.

The rationale for the old

GATT and the new WTO is that public interest is served by free trade, and that groups which may experience disadvantage from free trade need to be re-strained from using their politi-cal influence against it. But a properly functioning international trade regime presupposes commonality of purpose.

Some countries do not share the American, and essentially also European, view that the purpose of economic activity is con-sumer welfare. They may view it as a means to attain other ends more political than economic in nature. In the Japanese case, with which I am most familiar, expan-

sion of productive capacity is inextricably fied up with an unex-amined (but assumed) struggle for national power.

If companies are encouraged to export regardless of profit, as Japanese companies are con-sumers in the target country are served for a while, but the result-ing erosion of that country's industrial base will eventually make its consumers less wealthy and push many of them into

unemployment.
This example also happens to contain the cause of America's biggest international economic problem: the incompatibility between Japanese and American economic organizations.

U.S. corporations are legal en-tities with identifiable owners whose relations and transactions with other economic organiza-tions are ultimately aimed at profit making. Big Japanese companies are sociopolitical entities that own each other. Their transactions are ultimately directed by mutual protection and the attainment of shared, longrange expansionary goals.

How else to explain the con-tinued massive exports by many Japanese companies at a time when, thanks to the sharp fall of the dollar and other currencies relative to the yen, the prices they realize do not cover fixed costs, much less return a profit? Other examples of institution-

al meompatibility abound.

U.S. antitrust law cartails collective exploitation of the marketplace; Japanese antitrust law is not worth the paper it is written on Industrial associations to on. Industrial associations to which Japanese companies in a particular sector must belong are endowed with extralegal power that severely curtails independent

corporate decision-making.

Many large Japanese commercial banks, and even larger numbers of nonbank financial institutions, are technically bankrupt by Western accounting standards; yet the protective institutional web in which they are embedded has allowed them to subsidize manufacturers which have lost beavily on their exports in their drive for market share.

Indeed, the consolidation of economic power by keiretsu (interrelated companies) and bureaucracy-linked industrial associations in the 1970s and '80s

made the distinction between public and private sectors—upon which the intellectual justification for the WTO depends—as good as meaningless in Japan.

To single out one Japanese institution: The officials of the Ministry of Finance are essentially accountable to no one—not to the prime minister, the finance minister, the finance minister, the Diet or the finance minister, the Diet or the media. Yet they have the infor-mal right to intervene in every Japanese financial transaction.

They can determine interest rates, maintain the stock market at a level they want so as to prevent economic breakdown, and ultimately decide which corporations receive credit and which do not. They monopolize vital information, without which outsiders, such as ambitious pol-

iticians, cannot control them.
As the politically driven Japanese economy has grown to become the second largest in the world, the incompatibilities turn into ever more formidable causes of economic conflict.

The writer, a political analyst living in Japan, is author of "The Enigma of Japanese Power." He contributed this comment to The

## Let's Have Second Thoughts About the Globalized Economy

PARIS — It is distinctly possible that the United States will not accept the trading reforms won from Europe and Asia last year at the cost of much international uproar and reciprocal national blackmail, President Bill Clinton told the Business Roundtable in Washington last week that top executives must do everything they can to get the GATT reform legislation through Congress this year, because if they don't it may never pass in internationally acceptable form.

Congress has decided that it does not like the looks of the new World Trade Organization that is to replace GATT organization that is to replace GA11 and discipline world trade. They think it may prove too cowerful, it will certainly limit the United States' ability to apply unilateral and arbitrary trace reprisals, as it does now. Republicans in particular are against changes that are supposed to take place in U.S. hudget rules concerning lost tariff income.

Trade legislation is an extremely dull

Trade legislation is an extremely dull subject to those not professionally devoted to the matter, such as Washington lobbyists whose busicess clients want more free trade for themselves but less for their competitors. However, it would be a remarkable humiliation for the United States if Congress rejected the outcome of the intense and complicated Uruguay Round negotiations, which beBy William Pfaff

gan eight years ago and were finally signed in Marrakesh early this year, Three administrations, two Republi-

can and one Democratic, have lectured and sometimes bullied the rest of the world about the necessity for freer international trade. They finally got approxi-mately what the United States said it wanted. Now Congress is suggesting that

America may not want it after all.

Those with the last laugh are those who have questioned the allegedly universal blessings of liberalized international trade. If Congress does reject the Uruguay Round agreements, this would be a wounding blow to the doctrinaire free traders who dominate U.S. and West Eu-

ropean economic theory and trade policy. There is a rumbling revolt - in Western Europe, at least - against the trade orthodoxy of the Thatcher and Reagan years. In Asia, these ideas have never had the acceptance they enjoyed in the West. Japan and the new Asian industrial countries have very sensibly profited from America's enthusiasm for liberal trade while protecting their own markets in ingenious and unacknowledged ways. In Western Europe, opinions have been

divided. Maritime Britain is a free trader.

Under Margaret Thatcher and her succes-sor, John Major, the British government has resolutely insisted that Britain benefits from having sold a large part of its manufacturing industry to foreign groups anxious to install trading bridgeheads in Europe. It would, they said, all come out for the best in the end — "in the long run," that is, when, as, John Maynard Keynes would have observed, Mrs. Thatcher and

her friends will be dead. Germany is a free-trading country: France and the Latin countries to its south have always been more protectionist. The European Parliament elections earlier this month saw an unexpectedly strong show-ing by French parties critical of the conventional wisdom about free trade. Historically, the French have tended to associate free trade with falling living standards and the loss of social protection, whereas the opposite is true in Germany.

The conventional wisdom, though, says that trade raises living standards, the more of it the higher the standards. But that is theory, and trade is not conducted in the ivory tower. Competitionpressed Western manufacturers during the past decade have too often looked for their "productivity" increases in reduced wages and social protection for the labor force. This is antiseptically described as improved labor flexibility, but has in fact

meant that workers have paid the cost of the undoubted other benefits of liberal-

ized international trade.

A recent article by Michel Hansenne, director general of the International Labor Organization, proposes that admission to the new World Trade Organization be linked to the trade union guarantees and free collective bargaining requirements of the ILO. That would provide some insurance against "social dumping" while protecting the developing countries access to advanced markets. access to advanced markets.

However, the U.S. Congress could solve the problem in its own way, by failing to pass the agreement. This would leave the world with its present trade regime, and probably in a drift toward large trading blocs in North America. Europe (including Eastern Europe) and at least a part of Asia.

It approaches heresy to suggest it, but perhaps that would not be such a bad. thing. Holding back the pace of trade liberalization would give the world an opportunity to explore the costs as well as the benefits of the globalized economy a very recent development, about which we may know less than we think, The experience of the last decade recommends a certain prudence.

International Herold Tribune D Los Angeles Times Syndicate.

## Behind the Dollar's Long Slide, a Lack of Confidence in Clinton

WASHINGTON - The re-

can dollar, including a slide that makes the U.S. penny worth no more than a Japanese yen, can seem inconsistent with basic economic theory. According to the textbooks, currencies are strong when the home economies are strong, and weak when they are in recessioo. Therefore the classic expectation, with the American economy now doing better than its rivals in Japan and Europe,

would be for a strong dollar. The American economy has heen in a moderate recovery for months, while Jaoan has been a recession and Europe has stagnated. Companies have reduced their debt, and inflation is so low that even Federal Reserve Board Chairman Alan Greensoan admits that it is no threat. Yet the dollar has been on a

gentle downward slope for more than a year, in oart because the Clinton administration was more than willing to see the dollar decline, so as to exert pressure on Japan to reduce its trade surplus with the United States.

The theory: a cheap dollar would help American exports to Jaoan, and hurt Japanese exports to America.

On Tuesday the dollar temporarily, and for the first time, sank fractionally below the threshold of 100 yen. (Around the time of the Plaza accord of 1985, it took about 250 yen to buy one dollar.) Last month, when the dollar appeared ready to break this psychological harrier, a round of concerted central bank intervention brought the dollar hack to 105. But it didn't hold there.

The dollar also slid on Tuesday to a nine-month low against the Deutsche mark, that is, below 1.59 marks, in part because Germany, like Japan, began to show some signs of coming out

of its deep slump.
On Friday, Treasury Secretary Lloyd Beotsen publicly con-firmed a new effort by the Group of Seven to break the dollar's slide. He said the action reflected "a shared concern about recent developments in financial markets.'

Mr. Bentsen thus has abandoned last year's benign neglect of the dollar. But it is not clear that intervention alone, however massive will turn the tide in today's highly mobile and global financial markets. Despite Friday's intervention, the dollar

the 100 yen level again.

In an interview, the New York economist Henry Kaufman said: "Bentsen has to get out there and say: 'A decline in the value of the dollar is against America's interest, and against the interest of the rest of the world, and we will not tolerate a speculative attack on the dollar.'

Conservatives like John Makin of the American Enterprise Insti-tute and former Fed member Wayne Angell call on the Fed to go all out in defense of the dollar by sharply boosting interest rates, without regard to what that might do to the economy.

I would not be surprised by a symbolic boost in the Fed's discount rate in support of Group of Seven intervention, But the dollar problem will not be solved by

interest rate austerity alone. There are some rational economic reasons that help explain the dollar's weakness. For example, the Fed's rapid-fire, preemptive rate increases this year resulted in an unexpected bust in long-term bonds. Many foreigninvestors worry that their bond price losses in dollar-denominated issues will not be covered by the rising yields, and so they sell: Martin Huefner, chief econo-mist of the Bayerische Vereins-

bank of Germany, notes, also, that given the disparity last year between American economic growth rates and those abroad, the U.S. current account deficit likely will double to around \$120 billion from \$66 billion in 1992. Yet the weakness of the dollar may be more political than eco-

weakened slightly, approaching comic. A series of negative the 100 yen level again. been avoided, have shaken the faith of foreign governments and investors in the wisdom and/or the durability of the Clinton ad-

ministration. Coocern over U.S.-Japanese relations was one important factor in the speculative bust in the stock and bond markets earlier this year. The Clinton administration recognized this, and wisely backed away from some of its harsh anti-Japan rhetoric. But no one is yet sure of the outcome of trade negotiations with Japan, or whether the Japanese, in retaliation, might reduce the flow of their capital investments outside of Japan.

Then there are the president's personal troubles -- Whitewater, Paula Jones, and his desperate struggle to get the 1994 domestic legislative program through Congress. Bob Wood-ward's book "The Agenda" made him look weak and ineffective. Washington is also rife with rumors that his foreign policy team is likely to be dismantled. starting with Secretary of State Warren Christopher. (Possible successors mentioned include General Colin Powell, Ambassador to Japan Walter Mond :

and Mr. Bentsen.) A restoration of confidence President Clinton and his abili to exert global leadership would be the best tonic for the dollar, more potent than coordinated intervention, however large well-timed. How can that .

achieved? I wish I knew. The Washington Post.

#### IN OUR PAGES: 100, 75 AND 50 YEARS AGO

#### 1894: Election Favorite

PARIS - The interregnum caused by the tragic death of M. Carnot will be speedily brought to an end by the election of his successor. Had the election been long delayed, political parties in France, who are so divided, would have torn each other in pieces. The prospects of M. Casimir-Pener appear to have brightened, and enthusiasts even talk of his being elected at the first ballot. The excitement caused among the population of Lyons by the assassina-tion of President Carnot appears to have subsided, and there is no longer any fear of disturbances.

1919: New Prohibition?

NEW YORK -There is a strong belief here that President Wilson intends to put an end to war-time prohibition, Nevertheless, Congress yesterday [June 25] proceeded to draw up enforcement regulations, making two provisions: first, for war-time prohihition, and second, for Consulutional prohibition in several towns, including Boston and New York, saloon keepers say they will continue to sell wine.

#### 1944: Russia Advances LONDON - [From our haw

York edition: The Red Army captured by storm yesterd y flune 26] two of the five chef fortresses of Hitler's "fatherland line" in White Russia and libe ed more than 1,700 inhabited calities. Vitebsk and Zhiobin, th two strong points that fell, were the northern and southern anchors of the German line, which appeared last night to be on the verge of collapse. The Red Army already has swept well beyond Vitebsk, which is seventy mile from the Old Polish Border.

## The Real Role Models Are Personal

NEW YORK — America de-ludes itself about why its children behave as they do. In the suburbs we herd them into malls and let them grow up bereft of community, under the impression that what you can buy is who you are. In the cities we raise them in devastated. parentless settings, where drug addiction and random gunfire rule the day.

After all that, when children behave badly we inexplicably lay the blame at the tarnished feet of America's sports gods. We blame Michael Jordan. for gambling. We blame Charles Barkley, for spitting on a fan. Now we're blaming O. J. Simp-son, for battering his wife and for being accused of her murder.

The blame of which I speak is indirectly assigned, a consequence of that seemingly innoc-uous phrase "role model." The term entered the language 30 years ago. Initially, a "role modwas someone whose successes other people — and especially children — might emulate.

As the television age wore on, there came a subtle shift in meaning. A "role model" became someone who, by virtue of fame and money, was appointed surrogate parent to America's young. These are peculiar "par-enis" indeed: They live bebind television screens, never meet their "children" and are expected to inspire oy force of fame alone. Any failing on their part is regarded as a betrayal of the nation, and a tragedy for all those By Brent Staples

doe-eyed kids in television land. These days, the term "role model" is almost exclusively heard when some modern-day lcarus loses his wings and comes crashing back to earth, proven mortal in the end. In the days since O. J. Simp-

son's arrest for murder, there have probably been hundreds of stories lamenting the loss of a vital "role model" for America's young. This despite the fact that Mr. Simpson's glory years as a player ended 20 years ago. In popular culture, 20 years is an eternity. ft's a safe bet that until Mr. Simpson's arrest, most kids had barely even heard of him.

Why then the constant "role model" morality play? Partly it's the archaic notion that athletes need to be paragons of virtue and temperance, exempt from mortal flaw. Beyond that, think, lies a deeper and more unfortunate presumption: that only stars can affect children's lives for the better, that the mere mortals among us are powerless to guide, shape or enlighten.

The sadness here is that the reverse is true. The only legiti-mate "role model" is the person whom children can see, feel and interact with in their daily lives. Enter Joseph Marshall Jr., recipient of a 1994 "genius" award from the MacArthur Foundation and co-founder of San Francisco's Omega Boys

Club. a place where young peo-

ple hetween the ages of 11 and 25 find friendship, surrogate parents, academic training and college scholarships. Mr. Marshall says inner-city

kids are confused and violent because they have been "orphaned" — by family, community, government and the media. No athletes, grinning or
otherwise, can reach them. His role is to recreate families for these children. He is also the host of "Street

Soldiers." an extraordinary violence-intervention project. At time when many radio talk shows have become little more than noise, Mr. Marshall's is the equivalent of a radio "parent," broadcast weekly on San Francisco's KMEL. He reaches an audience of 40,000 to 50,000 young people, many of whom he advises on

such pressing matters as how

not to shoot people and how to

avoid being shot.

The results speak for them-selves. "Street Soldiers" has a proven record of averting the reprisal shootings that often follow initial episodes of violence. And since the Omega Boys Club opened in 1987, more than 100 young people who might well have gone to jail, or to graveyards, have.

gone to college instead. That's what a role model is: someone who loves and works and encourages and lays on hands. All the rest is noise and

Ivo Nedialkov is president of the East-West International Holding Group PLC. He was born in Sofia on August 9, 1966. After earning an advanced degree in jurisprudence, Mr. Nedialkov began his career working at a foreign trade company specializing in agro-business products. In 1989, in the wake of Bulgaria's revolution, he joined a group of other managers in founding a company specialized in providing legal information on an international basis. In 1990, under Mr. Nedialkov's leadership, a business group set up Temex, Bulgaria's first privately owned foreign-exchange dealer. Since 1993 and the founding of the East-West International Holdings, Mr. Nedialkov has been its president.

## COMPANY PROVES ITS ABILITY TO PERFORM AT WESTERN LEVELS

In the following interview. East-West's president, Ivo Nedialkov, addresses the state of Bulgaria's economy and discusses the present and future of his rapidly developing country.

Your company is active in a great number of fields. This breadth is especially striking when considering the relative youth of your company. How did this come about?

You can't equate the situation

in Western Europe or the United States, where each business niche is well-established and regulated and where only marginal changes are possible, with that of Bulgaria and the Balkans. Many of the fields in which group companies are now active didn't exist at all a few years ago. In others, East-West companies have been the only ones to establish a lasting reputation for reliability and honesty of performance. Companies able 10 perform at Western standards are, unfortunalely, still at a premium in Bulgaria. Our track record has led a number of Western companies to come to our companies with proposals as to working relationships in new areas of business - new at least to our companies, which have now entered new fields.

Your ochievements are even more remarkable when one considers the general state of Bulgaria, which has been wrestling with uncertainties in its political and economic situotions. Has this uncertainty been a major

It's obviously easier to function in a society that has well-defined, scrupulously enforced rules and regulations. But it would be wrong to suggest that

my" has only negative aspects. Quite the opposite is true. Unlike economies in Western countries, this is still a very open market, in which enterprising, professional companies and people can quickly make their mark. There is also a tremendous pent-up de-mand for many kinds of goods and services, and this demand has yet to be fully met. In addition to such consumer standards as automobiles and refrigerators, I'm referring to such items as insurance policies of proven pro-

Privatization program offers major opportunities

Nor would it be correct to suggest that Bulgaria hasn't made progress. Any visitor 10 Sofra has seen the great number of new restaurants, food stores, copy shops and other outlets.

East-West has expanded at a rapid pace over the past few years. Is 1994 set to be a year of

consolidation for the group?

Quite the opposite. During the first half of the year, we've actually stepped up the pace of introduction of new activities and new financial products. Many of our most promising activities examples are housing construc-tion and financing and insurance - have been launched during the past year. We've placed a high priority on modernizing Bulgaria's financial sector. After introducing large-scale professional stock trading to the country. we're now taking on the country's banking system, offering

Bulgaria's "unfinished econo- banks such products as hardware and software for their daily operations. We've also started up a bank of our own. It has introduced such "new" corporate and retail services as factoring and checking accounts.

One reason not to slow down comes from Bulgaria's economy. This year is the year in which several large-scale, interesting opportunities will materialize in Bulgaria. For instance: the country's privatization program is about to commence its major phase of operations. We intend to participate fully in this process.

A prerequisite for operating in oll these fields is a large stock of qualified personnel. How have you gone about recruiting and training East-West's personnel?

Bulgaria, like all the former East bloc countries, had a welldeveloped foreign-trade system. This system's individual economic units traded in all of the world's important markets and in all of their leading sectors. Many of our senior managers including me - got their start there. In addition, the country has several good universities. Many of our staff members are recent graduates of them. When selecting our future employees, we tend to look for certain qualities rather than a set of individual skills. These qualities include reliability, accountability, helpfulness - long standard to the world's service sector, but often unknown in pre-revolution Bulgaria. The qualities of our individual staff members, in turn, find their expression in the high quality of our operations. It is this quality that has allowed East-West to grow.

## **Bond Markets Still Caught** In the Dollar's Undertow

By Carl Gewirtz

mal Herald Tribune ARIS — The closing week of what probably ranks as the worst six months in the international bond market risks being as volatile as any yet seen. Currency markets are clearly beaded for turmoil after last week's concerted intervention failed to stabilize the dollar. And bond markets are the stabilize the dollar. kets are vulnerable to a smal last gasp from investors who, having waited to the last minute for better prices, will be bailing out before the end of the half-year reporting period.

Although analysts are of one voice in arguing that European

bonds are exceedingly attractive

investments at current yields, they also agree that bargainhunting awaits resolution of the disturbance in the currency market and clarification of what interest rate moves the U.S. and German central banks are pre-

Fine territoria della considera della consider

÷

Serie Edit

A Company of the Comp

to advance. The markets best positioned to advance, analysts say, are those that so far have lost the most — notahly Britain and Spain. At the start of the year, 10-year British government paper was yielding 75 basis points, or ¼ of a percentage point, above German levels. By last week, that spread has widened to 183 basis points. For Spanish

Britain and Spain are

markets best positioned

bonds, the spread has widened to 370 basis points from 253. For now, analysts agree, what little money is being committed to new investments is not crossing borders. This helps explain the surprisingly good reception of last week's global offering of \$1.5 billion from the Federal National Mortgage Association, or Fannie

This was the U.S. mortgage agency's first venture into the international market, and managers reported a whopping 65 percent of the issue was placed outside the United States and twothirds of that was sold in Europe and the Mideast. Bankers said the paper appealed to investors who were holding dollars from interest income or redemptions but acknowledged that the bulk of demand was switches out of Treasury holdings.

U.S. agency paper is not actively traded in Europe. Thus, even though Fannie Mae's domestic issues usually are priced to yield 28 basis points over Treasury paper, international investors prefer to forgo the extra yield for the liquidity of Treasuries.

Fannie Mae's global format overcomes this hurdle. In addition,

the 10-year bonds are non-callable - a change from its domestic practice of issuing only callable paper. The combination of widening the international investor base and issuing non-callable paper enabled managers to price the paper at only 25 basis points over the benchmark rate, a saving worth \$4.5 million to the issuer.

Canada's larger \$2 billion offering but with a maturity for only

## **Orders For Tools Fall 18%**

WASHINGTON — U.S. machine tool orders fell 18.5 percent during May as higher interest rates retarded econom-ie activity, industry figures showed Sunday.

Economists monitor tool orders to gauge factory output and business investment.

The Association for Manufacturing Technology, which prepared the report, said orders declined to \$336.85 million in May after rising 11.6 percent in April, initially reported as an 11.7 percent gain.

Compared with a year earlier, tool orders were up 6.7 percent. While higher interest slows domestic economic growth, foreign demand for U.S.-made goods has been restrained by recessions in Germany and Ja-

"If exports begin to turn around, this could be a very good year," said Albert Moore, of the industry association.

By category, metal-forming tool orders decreased 41.8 percent in May to \$115.50 million after rising 66 percent in April. Metal-cutting tool orders rose 3 percent to \$221.35 million last month after declining 14.3 per-

Total tool shipmeous decreased 2.6 percent during May to \$335.20 million after rising 8 percent in April.

The backlog of orders, which tracks manufacturing ability to meet demand, increased 0.1 percent in May to \$1.7 billion after rising 4.3 percent in April.

The Federal Reserve's latest Tan Book said interest rates are slowing U.S. growth.

## Root of Dollar Woes: Lack of Buyers

By Carl Gewirtz

International Herald Tribune, Monday, June 27, 1994

PARIS — Like snowflakes and fingerprints, financial crises are over identi-cal. But the distinguishing feature of the one now developing in the foreign ex-change market is especially relevant be-cause it defines the problem and suggests that finding a solution will not be easy. The main characteristic is internation-

al investors' unwillingness to purchase the U.S. dollar.

At first glance it may seem to be of little importance whether the dollar is sagging because market operators are actively dumping it or because they pas-sively refuse to buy it. Either way the currency is weak.

But the distinction is critical. It explains why Friday's concerned intervention by some 17 central banks led hy the Federal Reserve Board failed to lift the dollar, and that, in turn, underlines what a difficult task officials face in establishing a floor from which the dollar can

Market professionals see the dollar remaining weak and headed for a possibly prolonged period of tension, particu-larly against the Deutsche mark.

The weekend resignation of the Japaoese government will not have helped the mood, but analysts expect the Bank of Japan to maintain its long-standing policy of beavy daily intervention to keep the yen above 100 to the dollar.

The dollar ended the week at 100.525 yen after briefly trading at an historic

low of 99.65 yen. The government crisis in Japan puts on hold any attempt to resolve the long-running trade dispute in Naples, Italy.

Mr. Lipsky asserts that the Fed would

with Washington.
"This does not necessarily undermine the outlook for the dollar against the yen," said John Lipsky at Salomon Brothers in New York. "But it's also hard to imagine that Japanese investors will be encouraged to make new portfolio shifts at this time. It will keep the

dollar under pressure against the yen." Analysts expect greater pressure on the dollar versus the mark. The dollar ended last week at 1.584 DM, a new low for the year, and, in the view of many analysts, it is headed to the low 1.50s. Such downward pressure, they added. would pull the dollar lower against the

The prevailing mood in the market is that the dollar remains weak until the Fed increases short-term interest rates. Most analysis argue that an increase of at least half a percentage point in the cost of overnight money to 4.75 percent will be needed to restore calm.

The main question is whether the Fed moves quickly or waits for evidence that such a rise is justified by a still too rapid rate of domestic growth. This week will see reports on May factory orders, personal income and leading indicators and next week begins with the Fed's policymaking meeting on Tuesday and Wednesday, followed on Friday by the important June employment report and then the annual weekend summit meet-

Mr. Lipsky asserts that the Fed would probably prefer to wait for new data confirming still rapid growth before rais-ing rates again. But he sees no problem for it to do so earlier.

Given that a crisis appears to be building, I don't believe the Fed per-ceives there is a dilemma between its domestic goals of sustaining noninfla-tionary growth and its international goals of stabilizing the currency and re-storing confidence. I don't think the Fed will need to await new data before act-

Market analysts agree that the central banks would have had much more success in intervening to support the dollar if speculators had placed huge bets on a continuing fall of the currency.

These so-called short positions are notoriously fickle and easily driven into reverse at the first sign of concerted intervention. Massive unwinding hy shortsellers usually drives an attacked currency much higher.

When there are no big short positions. intervention will drive up a currency so long as the central banks are buying it. But when the officials withdraw, the currency resumes its fall.

Indeed, the spectacular failure of Friday's intervention left some market professionals questioning whether the cen-tral banks were trying to boney a bear

## China Lacks Copyright Enforcement

Agence France-Presse

BELIING — The Chinese government, for all its pledges to improve copyright protection, remains impotent to eurb widespread violations to ward off looming U.S. sanctions, analysts said.

Beijing has until Thursday to. take effective action or face sanctions under the so-called

Super 301 provision in the U.S. Trade Act

In April, the United States cited China as one of the worst violators of U.S. patents and copyrights and gave it 60 days to deal with the problem. Even though China imple-

mented a copyright law in 1991, foreign manufacturers bave continued to complain of blatant violations. In particular, lawyers here say violations of foreign intellectual property rights continue.

They've done a lot in terms of signing treaties and promulgating laws, but so far missed out in the enforcement," a Beijing-based specialist lawyer said.
"It's understandable — China's piracy of its products.

a very big country and in remote areas, intellectual property rights are still not widely

But Washington is not propared to accept copyright in-fringements, which cost U.S. companies some \$800 million last year.

The Business Software Alliance, the U.S. software industry's anti-piracy watchdog, expressed support Friday for sanctions, saying copyright vio-lations in China cost the sector \$322 million in 1993.

The U.S. software giant Microsoft Corp. alone has complained of losing more than \$30 million through blatant Chinese

Beijing has defended itself recently with a media campaign stressing the depth of its commitment to curbing violations and blaming them to a large extent on foreign complicity or lack of cooperation.

In mid-June, the government issued a white paper highlight-ing efforts to raise protection to world standards and dismissing allegations that China lacked the ability to undertake its international obligations.

Among its latest moves, the China Daily reported on Satur-day that authorities were implementing a copyright certification system to protect foreign audio and video producers from piracy in China.

## FBI Asks Germany For Aid in VW Case

Compiled by Our Staff From Depaid BONN - The FBI has asked Germany to help in the industrial espionage case brought by General Motors Corp. against Volkswagen AG, a Justice Min-istry spokesman said Sunday. The spokesman confirmed a

report that the FBI had requested the ministry's assistance in investigating José Ignacio Ló-pez de Arriortúa, the former General Motors vice president who switched allegiance to

The FBI also wants to see the files of the Darmstadt prosecutor's office, which is investigating the industrial espionage aceusation io Germany, the

report said. General Motors' German subsidiary Adam Opel AG has accused Mr. López and other employees who followed him to

VW of taking material contain-ing industrial secrets with them. The report in the German magazine Der Spiegel said U.S. investigators had determined which documents disappeared from GM's Detroit office and bow they left the United States, and now they want to verify whether the documents ended np in the hands of Volkswagen

(AFP, Reuters,

#### ■ Schneider To Return?

The fugitive construction entrepreneur, Jürgen Schneider, plans to turn himself in to German authorities, the magazine Focus says in its latest edition. Bloomberg Business News reported from Munich.

Focas said Mr. Schneider, 60, was doing badly psychologically and physically and had trouble getting at the money he allegedly spirited away from his construction empire in Germany, where he is sought for credit ny, where he is sought for credit

## A Place in the Margin For Taiwan's Investors

Taiwan's stock market has fared better than most in Asia in the first half of the year, trailing only lodia, Japan and South Korea in terms of performance. It is favored by many fund managers in the next six months as well. But while exporters have gained with a weaker local curren-

cy in competition with Japanese manufacturers burdened by the strong yen, the equity market bas been hamstrung lately by a shortage of capital available to local investors who want to borrow to buy stocks.

Currently, Fu Wha Finance Co., which dominates the

business of lending investors the minimum amount required to purchase stock, or the margin, has reached its lending limits. Overall stock-lending, individual brokers included, hit a record high of 195 billion Taiwan dollars (\$7.25 billion) With a well-earned reputation as a volatile market, Taiwan's margin trading in the past has been under a tight rein

from the central bank and the Securities and Exchange Both regulators have, until recently, taken a cautious view of requests by more margin lending finance companies to set

up shop, particularly since at least one big hand —an investor suspected of manipulating the market - is behind one of the applications.

Changes are likely, bowever, judging from comments by Taiwan's new central bank head. Liang Kuo-sbu, who is expected to be a strong force for financial market reform.

"My opinion is that letting one company monopolize this market is no good," said Mr. Liang, who welcomes foreign participation in the market through joint ventures with Taiwanese companies. "I am already asking the banking depart-ment to review," he added.

#### The Bucks Can Stop Here

A recent decision hammered out between the Ministry of Finance and Taiwan's central bank to allow foreigners to open up Taiwan dollar savings accounts could be the slow

start of a new trend towards greater openness. Protective of its exporters and loath to allow rival China to infiltrate its financial system. Taipei has traditionally kept foreign exchange flows to a restrictive minimum.

But starting next month conresident foreign individuals and businesses including foreign individuals will be allowed to open unlimited regular savings accounts at all domestic foreign intitutions.

to open unumted regular savings accounts at all domestic financial institutions. The next stage, according to a report in the local China Post newspaper, will be allowing foreigners to open checking and time-deposit accounts.

The move is designed to help boost turnover in the country's small foreign exchange market, where daily turnover for Taiwan dollar-U.S. dollar transactions is lucky to hit \$200 cillien desiries.

million despite Taiwan now being the world's 13th largest trading economy.

Inflow of more than \$100,000 for conversion into Taiwan dollar savings will continue to require central bank approval.

#### Much Ado About Dogs

It's difficult to be alone in Taipei or the surrounding countryside. If you can escape the 20 million peopled crammed into a mountainous island a little larger than Belgium, there is likely to be a dog far less friendly than the natives.

with 60 dogs per square kilometer, Taiwan bas the the world's highest canine density.

There are 2 million pet dogs on the island, one for every 10 people, and at least another 1.3 million strays. And, as environmental authorities have found a way of measure, they produced 380 metric tons of droppings in public places a day. In a increasingly wealthy country where the improvement of living standards and environmental awareness are of growing concern, cleaning up after the dogs has broad public

support.

Environmental officials estimate the cost of catching the stray dogs, putting them down by lethal injection and crema-tion could reach as much as \$190 each, or about \$245 million. the equivalent of the agency's annual budget.

Far greater environmental problems across the heavily industrialized island need to be tackled, so Taiwan's dogs are probably safe for the moment.

Weach Time Warner Inc. disclosed in late 1991 that its chairman, Steven J. Ross, had prostate can-

> Indeed, the corporate trend is toward more timely and candid disclosure in executive health issues, said Mr. Schulte. He noted, for example, that when com-panies go public they are now careful to provide details of any illness in their executive ranks in the documents they file with the SEC. Mr. Schulte makes sure to speak with each of a company's key executives when his firm is in charge of producing registration documents, asking them, among other things, "whether they're aware of any physical situation that might impact on their ability to

serve in their capacity." Still, Mr. Schulte, the securities lawyer, suggests that it should be up to shareholders to decide whether they feel comfortable holding on to a stock on health-related news. And when it comes to senior executives, "death is pretty material," he said.

## L'ORÉAL PRESS RELEASE

In a press release of 14 April 1994, L'ORÉAL announced a project to transfer and acquire shares in COSMAIR INC. (USA), COSMAIR Canada, LORSA/FAGEL (Switzerland) and PROCASA (Spain). The financial terms and conditions of the transfer of shares from Mrs, BETTENCOURT, NESTLÉ and

L'ORÉAL which will be submitted to L'ORÉAL shareholders, are as follows: a. - The companies whose shares will be transferred will be valued, subject to some adjustments, on

the basis of turnover for the period from 1 May 1993 to 30 April 1994, converted into French francs using the average of the month-end exchange rates for the period;

efore: GESPARAL's transfer of 51.16% of COSMAIR US and 29.63% of COSMAIR Canada to L'OREAL will be valued at FF 4,007 million, and will be paid for by the allocation of 3,271,021 new L'OREAL shares at a price of FF 1,225, the price per share having been calculated specifically using

Following this operation, L'ORÉAL's share capital will consist of 61,460,197 shares. GESPARAL's interest in L'ORÉAL will increase from 51.04% to 53.65%. The new L'ORÉAL shares. as well as the transferred shares, will be cum-dividend as of 1 January 1994.

These proposals are based on the following:

	TURNOVER 1 May 1	1993 NET PROFIT		
	In local currency	In French francs	1993 NET PROFIT	
US CANADA AGEL	US\$ 1,355 million Can \$ 201 million SF 129 million Ptas 27,200 million	FF 7,823 million FF 876 million FF 511 million FF 1,156 million	US\$ 59.7 million Can \$ 9.7 million 5F 16.67 million Ptas 1,467.6 million	

If this transfer had taken place on 1 January 1993, taking Into account the 1993 net profit carned by the companies concerned and converted at 1993 year-end exchange rates, it would have increased L'ORÉAL's net carnings per share in 1993 by 2.1 %.

A fairness opinion will be requested from CREDIT COMMERCIAL DE FRANCE. As required by law, the President of the Commercial Court will appoint one or several expert appraisers of capital contributions to assess the value of the shares transferred by GESPARAL to L'OREAL

before the end of the year to approve those transfers. As soon as the transfer is carried out, NESTLÉ will sell the remaining shares in these companies to L'ORÉAL for cash as follows:

The expert's report will be presented to the L'ORÉAL Extraordinary General Meeting to be called

45.11 % of COSMAIR US.

## **GM Offers Carrot to Move Idle Workers**

By James Bennet New York Times Service

DETROIT - General Motors Corp. is offering some of its idled hourly workers up to \$60,000 to move to four plants where jobs are available.

The offer is the latest in a series of attempts by GM to plug a perennial drain on its coffers - members of the United Automobile Workers union who draw full wages for not working.

The UAW negotiated that benefit as part of a 1990 contract with GM, in order to discourage the company from laying off workers.

Under the terms of the 1993 cnntract, GM can generally force laid-off workers to take new jobs only if those jobs are within 50 miles of their old ones. As a result, GM has resorted to a series of sweeteners to induce its workers to move or

Through the new offer, GM is trying to move workers to its

plant in Arlington, Texas, also give up their recall rights, on indefinite layoff, Mr. Licari which makes rear-whoel-drive which usually guarantee that said.

cars like the Chevrolet Caprice; workers who move can return In addition, other laid-off its plant in Shreveport Louisi. its plant in Shreveport, Louisiana, which makes small pick-ups; its plant in Janesville, Wis-

consin, which builds full-size sport utility vehicles, including the Chevrolet Suburban, and its plant in Defiance, Ohio, which casts iron for engine blocks and other components.

Under the terms of the deal, which has been available to some workers since April, employees who decide to move will receive a \$25,000 bonus, said Charles C. Licari, a spokesman

Employees will be reimhursed for some moving expenses and will receive additional bonuses after the first and second years at their new

Workers who move give up seniority rights, which among other things determine which

to their old plants if jobs open

Mr. Licari said some workers had elected to move, but he declined to say how many. He said the company had not set a date

for ending the offer. A spokesman for the union. Reg McGhee, also said he did not know how many members

had accepted the offer. About 2,400 of GM's 250,000 hourly workers are laid off and have the protected status that guarantees them full wages, the

company said.
Another 2,750 workers are on indefinite layoff, drawing about 70 percent of their gross pay through a combination of payments from the auto maker and unemployment insurance. After 36 weeks on indefinite layoff. the workers attain protected status.

At the end of 1993, GM had assignments they receive and about 3,900 workers with pro-which shifts they work. They tected status and another 7,600

workers have promised that they will retire within two years. in exchange for 85 percent of their gross pay and a guarantee that GM will not force them to accept a job in the interim. Mr. Licari said he did not know how many workers were in that cate-

The 1993 contract also forced GM to set aside nearly \$4 billion to pay laid-off workers through 1996, up from slightly more than \$3 billion under the 1990 contract.

The new offer is aimed at workers with protected status who were laid off from five plants: Van Nuys, California; Wentzville, Missouri: Lordstown, Ohio; Danville, Illinois, and Indianapolis, Indiana.

GM's common shares fell 12.5 cents Friday, to \$50.625, on the New York Stock Exchange. More than 2.2 million shares changed hands.

#### **WORLD STOCKS IN REVIEW**

#### Amsterdam

The market caught the negative mood of other world markets last week, with the AEX losing 5.95 points to end the session at 381.43 in thin trading. The market had moved cautiously ahead

in midweck, but fell back amid further fears of the consequences of the plunging

#### London

Upsets on the bond and foreign exchange markets and fears of returning ingroups, said: "We are the flation in Britain drove the London stock market down sharply last week to levels

last seen almost a year ago.
The Financial Times-Stock Exchange Index shed 146.3 points or 4.84 percent in five sessions to end the week at 2,876.6, the lowest level since last July 27.

Among stocks featuring during the week, Eurotunnel fell. Euro Disney, which just split its stock two for one and launched a capital increase on Monday, plunged 65 pence (\$10) to end at 135, The media had a tough week following a price reduction by the Daily Telegraph.

#### Frankfurt

The market dropped sharply last week, due to the dollar's weakness and a sudden rise in interest rates, but then it pulled itself together to regain some losses in

what dealers called very volatile trading.
The DAX index ended Friday at
2,005.31 points, 2.2 percent below the level
of the previous Friday. For the medium.
term, Commerzbank forecasts a DAX at around 2,350 points.

On the bond market, average yield on

government issues ended Friday at 6.92 percent, against 6.93 the previous Friday.

#### **Hong Kong**

Local and global uncertainties conspired to push down stock prices last week, with the Hang Seng Index shedding 232.96 points, or 2.56 percent, to end at 8.881.00.

Volume was thin, averaging 2.60 billion Hong Kong dollars (\$336.38 million), compared with 4.03 billion dollars during

the previous week. Amid fears of U.S. interest-rate hikes, the Hang Seng Index plunged by a total of 256.18 points on Monday and Tuesday, then staged a 109.01-point return Wednesday and Thursday. On Friday, news that a Sino-British meeting on financing Hong Kong's new arroort had failed again 10 posters. reach agreement sent stocks sliding 85.79 points, or nearly 1 percent.

## Indurain Eclipsed? Only on Cycling's Computer

By Samuel Abt

nonal Herald Tribune

PARIS - The newly revised computerized standings of the world's top 800 professional bicycle racers bave just confirmed this season's curve: Miguel Indurain is no longer No. 1, and Tony Rominger is no longer No. 2. They switched positions as indurain fell from atop the race the previous two years. list for the first time in two

Don't expect wild celebrations or loud gnashing of teeth. Both men are placed types, stolid as oaks, and both have known for weeks that the change was coming.

Rominger, a 33-year-old Swiss who rides for the Mapei-Clas team from Italy, made his jump when he won the Vuelta a España last month for a record third successive year. Added to will stop at three, that he is on the jackpot for his victory in the decline just as Rominger. third successive year. Added to March in the Paris-Nice race, who finished second in the last the triumph in the Vuelta sent Tour, is reaching his peak.

Rominger's computer total to 2.518 points.

Lille, in northern France, and
Unlike his rival, Indurain has
Rominger is indeed a favorite to not been winning lately, and his be wearing the overall leader's total slipped several hundred to yellow jersey at the finish in 2,175. A Spaniard who will turn Paris, three weeks and 3,978 ki30 in a few weeks, Indurain lometers (2,474 miles) later. Roguaranteed his fall when he finished third this month in the Giro ditalia after vinning that

The buzz began circulating at Also for the first time since races and in the cycling press 1992, he failed to win the Giro's this spring, while Indurain, time trials, the race against the hampered by a torn leg muscle, elock in which he habitually has built his winning margins. This performances. Such an eminent built his winning margins. This year he was third in the short directeur sportif as Cyrille Gui-prologue, fourth in the first mard of Castorama, who has long time trial and second in the guided three riders to victory in the Tour, says publicly that the Spaniard is on the skids. And so the buzz now is that

Giro d'Italia after winning that France.

final one.

That may be the word, but it Indurain's domination of the Tour de France is ending, that hasn't reached at least two ridhis string of victories in the ers. Greg LeMond, who has world's greatest bicycle race won the Tour himself three Indurain." times, and Diamolidine Abdou-

"Struggling?" LeMond said last week, repeating a description of Indurain. "Struggling to get third place in probably one of the hardest Tours of Italy in there was no one who could land near Paris. of the hardest Tours of Italy in there was no one who could recent history? If I could finish help him. He doesn't like to be the Tour of Italy in the top 20 alone."
three weeks before the Tour de He w France, my hopes would be

suffered through the first part of the Giro, but I think he finished very strongly.

"I have no doubt that he's the favorite in the Tour," LeMond continued. "I don't think he'll have any problem. No. Who's going to touch him? Who's going to beat him? Rominger? He

LeMond did not ride in the japarov, the Tashkent Terror, like Indurain in the Tour. They like him wholesale. Giro, but Abdoujaparov did. What the Uzbek sprinter saw there impressed him.

He won't be alone in the Tour. His Banesto team, which very high for the Tour. is based in Spain, will be send-"Look at Indurain's circum-ing the A squad to France instances: His preparation was stead of the B squad that went nothing in the early season. He suffered through the first part that ferried Indurain through race, elimbers and allthe mountains last year on his way to victory by five minutes

over Rominger. Everybody else was far out of Indurain and Rominger. Or should that be Rominger and Indurain?

Twenty-one teams of nine a heavy toll. men each will be at the start.

Hiroshima & Yokult 1

Chunichi 5, Honshin 2
Senday's Re
Yomkuri 8, Yokohama 3
Chunichi 3, Honshin 2
Yakuli 3, Hiroshima 2

Excluding the prologue and a day off on July 14, the Tour will comprise 12 daily stages over flat country, six stages in the high mountains and three time trials, two on an individual baarounders the second.

For the best elimbers, including Indurain and Rominger, there will be two stages in the contention — a scenario that is Pyrenees, one stage over deso-likely to be repeated in July. late Mont Ventoux in the Midi The general expectation is for and four stages in the Alps, inanother two-man race between eluding an uphill time trial. The Alps, where the race arrives in the last week of its counterclockwise journey, should take

There are many contenders Confronting them will be several novelties, such as two daily

in the struggle for third place.

They start with Gianni Bugno and Claudio Chiappucci, two Italians who have been on the lower steps of the final victory podium before. Add in Alvaro Mejia, a Colombian; Vladimir Poulnikov, a Ukrainian; Pavel Tonkov, a Russian, and Andy Hampsten, an American. Alex Zülle, a Swiss; Armand de las Cuevas, a Frenchman; Erik Breukink, a Dutchman, and Richard Virenque, another Frenchman, cannot be overlooked either.

But it appears to be unrealistic to search that list for a possible winner of the Sist Tour de France. On paper, at least, the final yellow jersey would seem to fit only Indurain or Rominger.

## Yankees Extend Win Streak to 5

Jim Leyritz and Mike Stanley homered and Jim Abbott won for the first time in a month Sunday as the New York Yankees blew most of an eight-run lead before beating the Cleveland Indians, 12-11.

The Yankees won their fifth straight overall and their eighth in a row against Cleveland dating to last season. It was the Indians' second consecutive loss at Jacobs Field after an 18game home winning streak. Cleveland trailed, 12-4, be-

fore scoring seven runs in the eighth inning, including a tworun home run by Manny Ra-

#### AL ROUNDUP

mirez, his 12th, and a three-run shot by Albert Belle, his 20th. Abbott allowed four runs and eight hits in six innings for his first win since May 25. In the interim, he was 0-3 with a 5.77 earned-run average in five starts. Steve Howe got the last two outs for his seventh save.

Jack Morris gave up eight runs, two unearned, six hits and six walks in just over four innings. It was his first loss in nine starts since he shaved his mustache to change his luck af-ter a May 9 loss in New York.

Twins 11, Royals 4: Kirbv Puckett hecame Minnesota's career hit leader and drove in three runs to lead the Twins over the Royals in Minneapolis.

Puckett had three hits, giving him 2,088 in 11 seasons with the Twins. He moved past Rod Carew, who had 2,085 hits in 12 seasons with Minnesota, Puckett passed Carew with a two-run homer in the first inning, a 438foot shot over the center-field

fence. It was his 12th home run. Jeff Reboulet had three hits and a home run. Pedro Munoz had four of Minnesota's 18 hits. The Twins have won 19 of their last 23 at home.

Brewers 5. Red Sox 4: In Milwaukee, Dave Nilsson drove in three runs, including the goahead score in the eighth inning, as the Brewers edged Boston. Nilsson's two-out single off reliever Chris Howard drove in

B. J. Surhoff.

White Sox 2, Mariners 1: Jack McDowell pitched a threehitter in Seattle as Chicago beat the Seattle and Randy Johnson. The White Sox won their fifth straight — three against Seattle - and for the sixth time in seven games have closed land's lead in the AL Central

Yankees 11, Indians 6: Cleveland's 18-game home winning streak came to a belated end when the Indians lost to the Yankees in a game that had been suspended Friday night.

Three rain delays and the league's 1 a.m. curfew forced the two teams to push back the final two innings of the game until Saturday. The Yankees led, 9-5, after seven innings when the game was suspended at 1:18 a.m.

Orioles 4, Blue Jays 1: In

#### For the NHL, A Lean Crop in Its Draft Field

- Players entering this year's National Hockey League draft are not as talented as last year's picks, although several could help struggling teams.

draft will be held Tuesday night and the remaining nine on Wednesday, Florida, Anaheim. Quawa, Edmonton and Hartford have the first five picks.

dek Bonk, a 6-fooi-3 (1.90-meter) Czech center who plays for Las Vegas of the International Hockey League. Rated No. 2 is Jeff O'Neill of Guelph of the Ontario Hockey League.

Toronto, Cal Ripken's tiebreak-ing, two-run homer in the eighth inning helped the Orioles hand the Blue Jays their seventh straight loss.

Juan Guzman retired 14 straight batters hefore Rafael Palmeiro singled with two outs in the eighth for only the Ori-oles' second hit of the game.

Athletics 2, Tigers 1: Scott Hemond, pinch-running for Geronimo Berroa, scored from third base on a wild pitch by Joe Boever in the eighth, giving the Athletics a victory over the Tigers in Oakland.

Hemond. who entered the game when Berroa opened the eighth with a single, stolc second and, after walks to Mike Bordick and Mike Aldrete loaded the bases, scored on Boever's wild pitch to Rickey Henderson.

Angels 12, Rangers 7: A two-run single from Chili Davis and a three-run homer from J. T. Snow capped a seven-run eighth inning for California at

home, helping send Texas to its ninth loss in 11 games. Davis's had-hop hit off Cris Carpenter came after Tim Salmon was intentionally walked to load the bases. It gave the Angels an 8-7 lead and Rex Hudler's RBI single and Snow's home run followed.

Royals 4, Twins 1: Mark Gubicza allowed five hits over sev-en innings and Bob Hamelin and Terry Shumpert hit home runs to lead Kansas City past Minnesota in Minneapolis,

The Royals managed only six hits against Pat Mahomes, but Hamelin's 12th homer — a two-run, 450-foot shot — and Shumpert's fourth were plenty.

Red Sox 10, Brewers 8: Mo Vaughn hit a two-run homer in the top of the 12th to lift the visiting Red Sox in a marathon featuring seven home runs, 26 of hits and a 33-minute rain delay in the 11th inning.

Vaughn was 0-for-5 when he came up against Doug Henry and hit a first-pitch fastball 430 feet for his 18th home run.

Jakob Hlasek of Switzerland congratulated Guy Forget of France, above, after Forget's straight-set victory at Wimbledon on Saturday. Forget next faces Jeremy Bates of Britain. At right, Martina Navratilova stroked a backhand in her victory over Linda Harvev-Wild. Navratilova moves to a round-of-16 match Monday against Helena Sukova the Czecb Republic.

# An Easy Fourth Round? Not So, Says Sampris

WIMBLEDON, England -Pete Sampras isn't underrating aces so far.

his fourth-round opponent, even if he is relatively unknown. After marching through Ja-red Palmer, Richey Reneberg and Chuck Adams - none of them ranked higher than No. 35. - in the first week at Wimbledon, he draws anonymous Dan-iel Vacek to start the fourth round Monday.

More easy pickings for the defending champion and No. 1

No way, Sampras said after completing a rain-delayed 6-1, 6-2, 6-4 victory over Adams on Saturday.

You probably never heard of him, but he's extremely dangerous," he said of Vacek. "I've played him before. I'm playing guy who hit 30 aces. A couple of swings of the bat and you could be out. I'm going to have to be ready."

Vacek, ranked No. 51, owns a heavyweight serve that has produced 63 aces in three matches here. Sampras, whose fastest measured serve in the first week

was clocked at 128 miles (205 "That's bat made [Andre kilometers) per hour, has 61 Agassia inner here a couple

What's interesting is that their ace production seems headed in opposite directions. Vacek opened with 11 against odd Mar against Gerard Solves. Then he had 21 against Mark Wood-forde before turning heads with Club two veeks ago. 31 against Yevgeny Kafelnikov.

to 10 against Adams. fourth-round schedule Mon-

Nine-time champion Martina Navratilova, the centerpiece of the women's draw after the elimination of No. 1 Steffi Graf, continues her farewell tournament, facing Helena Sukova. Other matches include Lindsay Davenport against Gabriela Sabatini; Lori McNeil, who eliminated Graf, facing Florencia Labat, and No. 2 seed Arantxa Sanchez Vicario against Zina Garrison Jackson:

Earlier, Leonard Shapiro of The Washington Post reported: 11 was Wimbledon the way they like it; gloomy, gray on green and always threatening rain. For years, Martina Navratilova has thrived in these conditions, and her third-round match Saturday against Linda Harvey-Wild was no exception as the 37-year-old grande dame of tennis moved a step closer to the end of her remarkable reign.

Harvey-Wild, ranked 34th. had beaten Navratilova on grass at Eastbourne in 1992, the only time the two had played. She came to Centre Court wearing a white headband that could just as easily have served as a blindfold for a tennis execution witnessed by thousands in a Navratilova-adoring crowd.

They had plenty to admire in Navratilova's relectiess 6-3, 6-2 victory that took all of an hou Smith struck out four and for the fourth seed playing in walked none to win for the what she has said will be her last fourth time in five decisions. He Wimbledon and her final year three points on her serve in the first set and advanced to a round-of-16 match Monday against always-tough Helena

Boris Becker, the seventh seed, who is playing with confi-The Expos capitalized on a dence has lost only one set his two-out error by shortstop Kurt first three rounds. That happened against Argentina's bigserving Javier Frana, but Becker prevailed easily, 7-6 (7-4), 6-4, 1-6, 6-3, in a three-hour match that went that long most-ly because the big German takes an eternity preparing himself to serve.

Navratilova was the model of efficiency, bashing in 66 percent of her first serves and never getting into serious trouble against an opponent with a strong serve but terribly erratic Knieks may have their eyes on groundstrokes.

Navratilova's biggest problem occurred much earlier. A photographer from one of the tabloids rang her front door and woke her up at 8 A.M. hoping to take her picture. Then she couldn't get back to

"He said, "The boss told me to ring the beil at 6, but I waited until 8," Navratilova said. "That's really nice. What do they think I'm going to do. The biggest name among say, Here, take a picture please

My son kicking a ball back and forth with a my son kicking a ball back and forth with a my son kicking a ball back and forth with a my son kicking a ball back and forth with a my son kicking anywhere but here," said Frank and forth with a my son who came from Manchester Township in his son, Nicholas, to Saturday's World Cup between Morocco and Saudi Arabia at the adowlands. "It's priceless."

The value of the afternoon was exhibited and assured in any number of ways. A band of process, in top hats as well as more traditionead wear, marched along the sidewalks and ting lots, blowing horns and beating drums. Sandis beseeched people to talk about soccer-ied not oil among the 72,000-person exercise in expetual motion outside Giants Stadium.

Moroccans are a people with heart, a people ho want to share anything," said Said Cherqui, ho was born in Casablanca, "Today, we share rpassion for soccer and our king. The king, nf se, comes first. I'd like to make sure to make

The Saudis sought their nwn kinds nf

Mohammed Al-ghamdi, a student at Montmery College in Maryland who was born in Sendi Arabia. It read: population: 14,435,000; ara: 829,995 square miles; language: Arabic. "Oil, oil, oil," Al-ghamdi said. "People talk heat Saudi Arabia and oil as if we all have it in ar wallets. But oil is nothing without people." But everyone understood that the World Cup emerience for both Morocco and Saudi Arabia mald be next to nothing without a victory Saturday. The twn teams are both overmatched compants of Group F, which includes the Nethriands and Belgium. They each began the day without a triumph. Neither wanted to end it vithout a singular moment of achievement.

Saudi Arabia, with a late first-half goal from a near epic distance, gained the day's distinction with a 2-1 victory. That Morocco had carried the play and flashed far more brilliance with the ball did not diminish the din in one section at the very

There, women smiled through their veils and men embraced. The baritone of traditinual horns World Cup.

blared, nutdoing even the crackling of Arabic music from portable radios.

"Goals, goals are everything," said Fahd Banasr, a delirinus dentist from Bostnn and Riyadh. "Goals and faith."

Saudi Arabia's respect for faith won it the backing of Mohamad Alazzawe, a native of Iraq who is a student near Washington.

"I sympathize with the Saudis," he said. "They are more Islamic. They are more into religinn." The harmony among the masses was not without its sharper cultural exchanges, and the Mnroc-

cans were as unabashedly straightfurward with their analysis as their players were with the ball. "The Saudis have mostly players from the Sudan," said Mnhammed Bentaleb. "They are a weak team. How did they get in the World Cup?

Hey, the Greeks have a team in the World Cup." Such moments of unsparing critiques, though, were rare. Most of the Arabie crowd actually appeared to be one giant student body, albeit one on a unique class trip. One man observed that there had been marriages between the royal families of Saudi Arabia and Morocco, and so what was a soccer game?

"We hate it actually that they have put both these teams in the same group," said Talal Fida, a Saudi student at Boston University.

"We came for Morocco to win, but we will not mind if Saudi Arabia does," said Azzeddine Anane. "We could wind up with history. Or maybe just a holiday."

Inside the stadium, the numbers of Moroccans and Saudis were dwarfed by others, but they each managed to establish strongholds and make themselves heard. Saudi flags rose up out of sections otherwise full of suburbanites, and there was a royal presence — Prince Bandar ibn Sultan and Prince Sultan ibn Fahd.

Neighborhoods of Moroccans took root at the corners of the field, right above the Arabic Coca-

Amid it all was Said Cherqui and his brother and father. He had grown up in Casablanca, and played professional soccer until the age of 17 when injury and reality each took their holds.

"My family was poor, and you come to a point where you have to go one way or the other," Cherqui said. "The choice was nbvious. The chnice was work."

Cherqui moved to Canada, studied, got a job and got promoted. He is now vice president for sales for a pulp and paper company in Ottawa. "I send money back all the time," he said, "And then I got a chance to bring them. For the

Saudi Arabian soccer fan, left, sensed a victory even before his country's team defeated Morocco in East Rutherford, New Jersey, on Saturday. In Orlando, Florida, Dutch fans carried a banner covered with supporters' signatures, but their team didn't get the message and lost to Belgium.

## Ireland's Coach Suspended for 'Unsporting Conduct'

nerable.

New York Times Service

ORLANDO, Florida -- Jack Charlton, coach of the Irish team, will not be on the sidelines for his team's final Group E match Tuesday against Norway because he has been suspended for 'unsporting conduct."

FIFA, the international soccer federation, penalized Charlton on Saturday for criticizing officials after his team's loss to Mexico the afternoon before. He also has been critical of the water provided for his players, whn are not accustomed to the Flurida heat.

"I have been yelling at players — nnt referees," the blunt Englishman said. "I referees," the blunt Englishman said. "I did protest at one linesman because a playing Mexico on Tuesday. If both Ireland. The third tiebreaker also is why second yellow card against Mexico.

fined \$15,000 and an Irish player, John Aldridge, was fined \$1,800 for what FIFA termed "ill-manner behavior."

Charlton's one-game suspensinn may not keep him from running his squad during Tuesday's match: FIFA said its sitting in the stands or communicating with his team.

The match against Norway is vital because all four teams in Group E are even in the standings, at least at first

throw-in at a corner was taken nearly at Group E games end in draws, then all Norway, which has lost to Italy, is on the the halfway stage."

four teams would have 4 points. At bottom.

He and the Irish delegation were both most, only three teams from one group. The fi can advance to the second round. If the

"We need a draw, but we're going goals scored, and Mexico and Ireland for a win because we want to stay in each have 2, which is why the Irish New Yurk," Denis Irwin, an Irish deteam's late goal against Mexico on Frifender, said. "We really don't fancy coming back here."

In addition to losing Charlton, Ireland will not have Irwin and defender

## In San Francisco, Tacos Come Splashed With the Hot Sauce of Soccer

I FEEL SAFER WHEN YOU'RE IN PLAIN VIEW

By Rob Hughes International Herald Tribuna

SAN FRANCISCO - The boy and his father come around to El Herradero whenever there is a match on. They have soccer in their blood, El Herradero is as Mexican as they are, and the proprietor, Alonso Ortiz, had the bright idea of investing in a with the tacos and the enchiladas.

We are in the Mission District,

We are in the Mission District, off San Francisco's tourist beat. "You take care now," said the departing cab driver, "there's bad people in these parts."

Bad, but also good. The Mission District is the Latino area of town, and El Herradero is an El Dorado for those whose blood is thick with soccer but who could never afford the travel, much less the inflated price of a ticket, for World Cup futbol.

In a sense, with corporate America helping to pitch the prices of entry at \$40 and up, this is a World Cup beyond the means of the immigrant Americans to whom the game means so much. Passion doesn't buy a seat, much less a seat on an airplane to

Boston, far from where Christopher and his father live shoestring lives.
But the father is proof that the police do

not spend every day hounding immigrants over work permits: Papa has a shoeshine shop inside the local police station. He is a proud yet humble man, lean and

monstachioed and Mexican at 50 paces. lis son treats El Herradero almost second home: he doubtless knows every pennant, every poster that covers the walls and ceilings in memory of Mexican league clubs, of Argentina's Boca Juniars, af Spain's Real Madrid.

A corner cabinet holds a miniature replica of the World Cup, brought in by Juhn McDermott, a world-traveled phntographer drawn to El Herradero's warmth and

As the proprietor, wearing a Mexico 1994 baseball cap, hurries between tables at almost a run, his eye strays appreciably toward the screen in the corner.

Spanish is the spoken tongue. The commentary from Mexico Televisa espouses the familiar rolling R's and extravagant "Goalilli Argentina!"

PEANUTS

GARFIELD

Diego Armando Maradona is, naturally. Christopher's idol. The boy, 7 gning nn 27, has a street-wise grasp of English as well as

A month ago, when the United States played Mexico in Stanford Stadium, the U.S. coach, Bora Milutinovic, took Christopher and and his father in the match.
One day, Christopher might repay that with a place on America's side. He may, as

a player or a supporter, be a part of the legacy, if any, that America gains from this

The U.S. squad has broken new ground by beating Colombia, its Latin flair and touch trumped by naturalized players such as Tab Ramos and Hugn Perez.

Christopher is aiming higher than that. Diego Armando Maradona is the name that rolls off his tangue with marvelaus resonance. The boy, though he wears a Chicago Bulls sweater two sizes too big, is never seen anywhere without soccer shoes. Beneath his tousled hair and behind his dimpled face, the boy knows an addiction when he sees one. He has been in this restaurant when Mexico beat Ireland, seen

grown men, and women too, grow near hysterical on the bopes and pressures of 90 minutes of soccer. If the law stays constant, if Christo-

pher's father remains in favor with the local police, the ynungster whose mother died in Mexico years ago may grow up tn a His slight build suggests be would be

wise tn concentrate on soccer rather than basketball nr American football. But you never can tell. Taste, like sport, is an affair of the mind

as much as the body. For now, this father and son, this restaurant, epitomize the Hispanic and African youngsters whose fathers have passed un the passion for the

On Saturday, the emotinns of the match that had Nigeria playing Argentina could be enjuyed from a distance of 3,200 miles, in the company of El Herradero. Had it been closer, had the stadium even been nn Missinn Street itself, the people watching in this restaurant would not have been able to afford the ticket prices.

can feast on weekly club soccer from Mexi-

The restaurant is itself a shrine. The walls and ceiling abound with pennants . The customers roll m right on kick nif and are gone shortly after the final whistle.

On Saturday, they mostly favored Nigeria, partly because Argentines have been known to look down on Mexicans, as indeed Argentine high society has aften disowned Maradona because of his Indian

The thunderously powerful start by Ni-geria, the great goal set up by Rashid Yekini and finished in style by Daniel Amokachi, received rapturous applause at the tables.

Argentina had to draw the Mexican favor, to demand it, Latin tn Latin. Two goals from Claudio Caniggia, a player who shares Maradona's wavelength as well as

They are the folks rich in soccer knowl- his susceptibility to cocaine, cracked it edge, poor in resources. But thanks to open for Argentina. The second goal — a Alonso Ortiz and his satellite dish, they sublime pass from Maradona, instant control by Caniggia, a hard shot - brought the house down on Mission Street.

Finally, the restaurant emptied and quieted. The proprietor, Alonso Ortiz, had and posters of clubs in Mexico, Argentina, where be worked a night shift, waiting tables at a banquet.

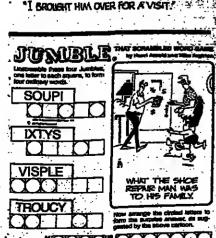

He knocked three myths on the head: the one about lazy immigrants, the one about Americans being more organized or enterprising than anyone else and the nne about transplants never taking root in a desert

Soccer's roots came to the United States with millions of immigrants. And while it has had to lie fallow because the Americans didn't want to understand the appeal, the pockets of popular faith in the game

are alive and well and kicking. Young Christopher's generation might yet force the elders to come in the ball

## FIFA's Blatter Pleased by Cup Progress

By Rob Hughes
international Herald Tribune

SAN FRANCISCO — It is halftime at the experiment taking the World Cup to America. Joseph Blatter, the general secretary of FIFA who made almost a personal crusade of cleaning up the game so that Americans might take to it, is satisfied.

"So far, it has been a wonderful World Cup," Blatter observed by telephone from his Dallas headquarters. "The players and the public have made this a hig party, we are at match 23 already and FIFA could not be more delighted with the way it is going.

Blatter has cause to glow. It was at his insistence that new rules to prevent players from kicking the goodness out of their game were passed

The outlawing of the backpass rule, the banning of tackles from behind and the introduction of three points for a victory are among the changes that bear Blatter's stamp. Working with FIFA officers who were not too conservative to vote against reform, he had insisted that the those teams and players who had destroyed the ambience of the 1990 World Cup would not do the same in the United States.

On Saturday, Blatter, never a man to shy from praise, got a phone call from Guil-iermo Canedo, chairman of the 1990 World Cup Organizing Committee, who told him: "This is a truly wonderful event, "Those chiefs created an atmosphere of and first of all this is your personal merit."

"The true reason for success is the behavior of the players," Blatter said. "It is far better than in the past, and I am sure that there is an inter-reaction between players and audience. So it was vital that we present a positive attitude on the field, give protection to the creative players, and insist on good refereeing, which we have had." Challenged on this, Blatter admitted

that some referees have not fully implemented the red card instruction on tackles from behind.

"Not everything is yet perfect, but I can say FIFA is very pleased with the stan-dards set so far," he said. "I think the players now believe that we mean husiness, and that the two-match han to players who get the red card has acted like an alarm hell to everyhody."

With unprecedented crowds, police officials at the game sites have been astonished at the party atmosphere and the lack of aggression.
"We still have to convince some peo-

ple," Blatter said.

Before Saturday's match in Orlando, security chiefs from the Netherlands and Belgium came to the United States predicting

"Those chiefs created an atmosphere of panic, as they also did in Dallas and Washington," Blatter said. "They are fools, all these so-called security officers who make such predictions."

Not fools, perhaps, but men frightened by the past.

"The most surprising aspect of this World Cup to me." Blatter said, "has been the hig interest created by the American media. They have adopted the new mood of optimism better than I expected.

We still have to find a solution to the dullness of opening match." he added. "Germany was, as usual cautious, in the first match, and Bolivia wanted at least not to lose in front of their head of state. We will look for a solution for next time." With that, Blatter was called to a meet-

ing. A referee in the Nigeria-Argentina match in Boston had appeared to show the yellow card to the wrong defender, to Sunday Oliseh instead of Augustine Eguavon.

"We are looking at the video, as we do all cases," Blatter said. "f there is a mistake, it will be corrected because if we create a new climate of discipline and respect, we must have equity.'

Compiled by Our Staff From Dispatches

Italy's captain groeper, Franco Baresi. was quickly discharged from the hospital following arthroscopic knee surgery, but doctors said it was uncertain whether he would recover in time to resume playing in the World Cup.

The Italian team's doctor, Andrea Ferretti, said that Baresi "does not feel any pain and can walk without crutches. The length of recovery depends on many factors, but the range of rehabilitation after such kind of operations is usually between 15 to 60 days.

The final is scheduled for July 17.

In another blow for Italy, goalkeeper GianLuca Pagliuca was suspended for two games after being ejected in the match against Norway for handling the hall outside the penalty area to stop a breakaway.

first-round game against Mexico and the second-round game, if Italy qualifies. Before the punishment was announced.

Pagliuca will miss Tuesday's decisive

appeal a two-game suspension. But a FIFA spokesman said that rules provide for appeals only with suspensions of three games or more.

Italy will have to reshuffle its defense for Tuesday's match against Mexico in Washington as another key defender, Paolo Maldini, is nursing a strained right ankle.

The injury list also included midfielder Alberigo Evani, who's sidelined with a had right leg strain, while defender Mauro Tassotti resumed training, following a twoday rest to heal a light right thigh strain.

• Juventus midfielder Dino Baggio, who

scored the goal against Norway, has signed a four-year-contract with the first division club Parma, the club said in Italy.

A statement said the contract, worth 1.2 hillion lire (about \$760,000), was signed in New York on Friday night.

Italian team officials said the transfer may be investigated by the disciplinary commission of the Italian Federation, because negotiations and transfers are not Pagliuca said he would ask the team to allowed during the Cup competition.

 German defender Thomas Strunz who did not play in the Cup opener be-cause of a right hamstring injury, has reinjured his leg during a light workout and may have to watch the game against South

The team's coach, Berti Vogts, indicated earlier that midfielder Andreas Möller, who has doubled as a striker, might be left off the starting lineup Monday.

• Bolivian striker William Ramallo and

defender Vladimir Soria both have ankle injuries and key midfield playmaker Erwin Sanchez is in doubt against Spain on Mon-day after hruising his right knee. Spain is certainly of having striker Julio

Salinas fit Brazilian defender Ricardo Rocha said he had still not recovered from a strained left thigh muscle and might miss

Mohammed Jawad of Saudi Arabia drove between two Moroccan players in the Saudi team's victory at Glants Stadium

## Longest Shots Hit Home in Saudi Victory

By Lawrie Mifflin New York Times Service

EAST RUTHERFORD, New Jersey -Before the World Cup began, oddsmakers had made Saudi Arabia the longest shot to win, at 500 to 1.

The Saudis, after all, had never qualified for a World Cup. Their country is a vast sandbox, with grass soccer fields plopped down in selected cities only in the last two

Their players compete professionally in a league so young and parochial that it barely qualifies as professional in caliber — a league for which Moslem clergymen had to give permission for the men to play

But against Morocco at Giants Stadium on Saturday, before a surprisingly large crowd of 72,404, this underrated Saudi team surprised all the experts - and especially the Moroccan team -hy winning, 2-I, and putting itself in good position to make it into the tournament's second

round. "This means a lot," said Mohammed Jawad, the Saudi captain, speaking softly in very good English after the game. "The whole world is looking. They didn't know ahout us, and we surprised them. It makes us very happy."

They certainly surprised the Dutch, taking a 1-0 lead last Monday and holding their own all evening before losing, 2-1, on a goal in the last few minutes. Now the Saudis bave the same three points as. and share first place in Group F with, those far more highly rated European teams from the Netherlands and Belgium. They will play Belgium on Wednesday in Washing-

"Against the Netherlands, we played very good," the Saudis' Argentinian coach, Jorge Solari, said through translators working from Spanish to Arabic to English. "We played well enough to win, but we had very tough luck."

Against Morocco, it must be said, the Saudis had very good luck.

They got a penalty shot, and Sami Jaber, the man who was tripped in the area, scored on it in the game's eighth minute. Morocco, forced to open up, had far the better of the play for most of the first half and made the Sandi defense look amateurish on the Moroccan goal, in the 27th

But Fuad Amin, the hard-working mid-fielder who had headed in the Saudis goal in the 2-1 loss to the Netherlands, scored on a beautifully taken, swerving long shot at the 45-minute mark to send his team into the locker room leading 2-1.

And that stood up - in large part be-cause Mohammed Deayea, the Saudis' tall and acrobatic goalie, stood up to Morocco's best shots. Many of these came off the rocket-launcher foot of Rachid Daoudi, who took nine shots in the game, almost all either on goal or just over it.

One of his shots came so close to skimming in that it landed on the netting atop the Saudi goal; another bit the crossbar so hard that it ricocheted about 30 yards back into midfield.

But for all their energetic offensive

ward for one of their regular defenders I minutes into the second half, the Morot cans could not find the back of the ne after their first goal.

100

.

442

That was the shot Mohammed Chaose drilled in from Deayea's doorstep after h." teaminate, Ahmed Bahja, paralyzed the Saudi defenders with his dazzling dril bling around them in the penalty area.

"Our brothers, the Moroccaus, have performed an excellent show," Deayer, who is 21, said through a translator. "Our team and the Moroccan team put on a good game. No matter who won, it was a victory for an Arab team."

It was a victory gained by the hard work and intuitive soccer sense of Amin, as well. At midfield, he pounced on a lazy pass sent out by the otherwise savvy Moroccan de-fender Abdelkrim Hadrioui, and dribbled forward, fighting off a shirt-tugging at-tempt to stop him as the referee held his whistle for the advantage.

Nearing the penalty area on the right side, still about 25 yards out, Amin looked up—he later said he had been thinking about passing—and soddenly lashed a shot that seemed to be sailing toward the

far side, almost like a cross: Goalkeeper Khalil Azmi started to lunge that way. The ball sliced back, and into the net, as the goalie scrambled back, getting one useless hand on it----

"It was a wonderful goal," Jawad said. It was a wonderful goal the goalkeeper went to his right side and the ball curved back and surprised him."

Just as the Saudis have surprised almost moves, including substituting a third for- everyone in the World Cup so far.

Scotland and, most painfully, to a lightly regarded team from Costa Rica coached hy a now-familiar Serh named Bora Milu-Four years ago in Italy, Sweden did not had 11." Svensson said. have Martin Dahlin. Friday night, with the gold hoop in his left ear glittering under the lights of the Silverdome. Dahlin gave a memorable

in Italy, Sweden's soccer team could do

little right in the World Cup finals, losing

all three matches it played to Brazil, to

demonstration of his world-class blend of athleticism and opportunism to rally his team to a crucial 3-1 victory over a diminished Russian side. "Martin has had a lot of good perfor-

mances over the last few years, but I would have to say this is one of his best, if not the best," said Sweden's coach, Tommy Svens-Dahlin, a 26-year-old striker, was instrumental in all three Swedish goals, setting up the first hy drawing a foul in the Rus-

sian box that led to Tomas Brolin's penalty kick and scoring the other two goals off well-placed headers in the second half. In so doing, Dahlin carried Sweden to its first victory in a World Cup final stage since 1974 and all but assured it of a place in the second round, much to the delight of 71,528

fans, most of whom backed Sweden. "I got two great crosses and just used my head; it was not too difficult," said Dahlin,

Gabriel Batistuta of Argentina. Both of Dahlin's goals came after the 50th minute, when the Russian defender

Sergei Gorlukovitch was given his second yellow card and ejected for fouling Dahlin. The ejection left the Russians with 10 men for the remainder of the second half. "I think we would have won even if they

Yuri Semin, a Russian assistant coach, was less convinced. "The red card was crucial. We lost the match because of it,"

About the only thing to go awry for Dahlin was the yellow card he received in the second half, which coupled with the vellow card he received in Sweden's opener, will keep him out of Tuesday's final group game against Brazil.

That game in the Silverdome will decide the winner of Group B. Brazil has 6 points, while Sweden has 4. Even if Dahlin's teammates lose to the likes of Romário and Bebeto, Cameroon would have to beat Russia and make up a significant goal differential to steal second place from

"It's going to be a big game against Brazil, so of course I'm sad to miss it," Dahlin said. "But the most important thing is to reach the second round, and I hope they can do it without me. In fact, I know they can."

Russia, which opened with a 2-0 loss to Brazil, was not nearly so ebullient. Six of Russia's best players elected not to play in the World Cup because of differences with their coach, Pavel Sadyrin, and the effect of the team's play has been glaringly evidents

The fact they can still put out a decent team is amazing, said Anders Limparga midfielder for Sweden. You take out or or seven of the best Swedish players from our team and we would be nothing. But it is very sad for Russia. With all their play ers, they could have been a contender for

the World Cup title."

One of several reasons Sadyrin's players called for his diamissal was his habit of blaming them publicly for defeats. Appare ently, Sadyrin is a creature of habit. After the loss to Brazil, he openly criticized his strikers and defender Viadislav Ternavsky who was victimized repeatedly by Rich mario, and promised there would changes."

True to his word, Sadyrin put no fewer than five new starters on the field again. Sweden, leaving star striker Serger Yura on the bench and getting back the service of his defensive leader Victor Onophi

who had to sit out the opening match.

Not even Sadyrin could have imagine
the changes would pay off so quickly,
the fourth minute, Swedish defender Ro er Ljung became tangled with striker Ale sandr Borodink after a cross into the Swedish penalty area. Striker Oleg Saleni converted the ensuing penalty to give the Russians a I-0 lead.

But Dahlin's strong play ensured the Russia's lead was short-lived.

Ronald Koeman of the Netherlands taking an indirect free kick toward a wall of Belgian defenders during the Dutch team's 1-0 loss at the Citrus Bowl in Orlando. Florida.

## For Belgium's 'Keeper, Nothing's Better Than 'Nothing'

By Malcolm Moran . New York Times Service

ORLANDO, Florida — As the resurrected rivery between Belgium and the Netherlands spun into the final moments, the drama of their 17th meeting, the first on the global stage of the World Cup finals, was reduced to a simple factor.

Page as their first meeting in seven years said. "I games." difference remained clear:

"The 'keeper who can keep the zero is very happy," Michel Preud'homme said Saturday. His ability to do that for Belgium in a second consecutive game, in the face of increasing pressure from the risk-taking Dutch, made Philippe

Albert's goal in the 65th minute the difference in

Belgium's emotional 1-0 victory at the Citrus The Red Devils, who lead Group F with six Dutch will face Morocco here Wednesday afternoon with their future in doubt. At a point in the Star-Spangled Banner," and "YMCA."

conserve energy for later rounds, the two European neighbors overcame another day of oppressive heat in central Florida to raise the game to an art form:

"People were saying before the game, 'Maybe they will play for one point,' " Preud'homme said. "But we proved we wanted to win the

Those suggestions began to vanish from the first minute, when the header by Belgian forward Josip Weber passed just above the crossbar. The teams were pushed by the rhythmic applause and frequent singing of all those supporters who had come thousands of miles to dress in red and orange—a clash, if there ever was one—and sit

in the Florida heat. An orange-clad band not far from the field, an international version of the old Brooklyn Dodger points, onalified for second-round play. The Sym-Phony, presented a pregame medley that Dutch will face Morocco here Wednesday after-included "Deep in the Heart of Texas," The

Netherlands, whose fans have placed less empha-sis on the rivalry with Belgium as the nation found it could compete with the powers, the opportunities continued to come.

Ronald Koeman, the Dutch captain, made a hard shot on a free kick that was knocked down by Preud'homme diving to his left in the 12th minute. Midfielder Frank Rijkaard released a running drive from the right side that was headed for the left post until Preud'homme dived and deflected the shot with his right hand.

At halftime, the Netherlands' coach. Dick Advocaat, added a midfielder to allow the gifted forward Dennis Bergkamp to concentrate more on the offensive end. "We put more pressure on." Advocaat said. "Bergkamp played an awesome bile accident game, only he didn't have the luck. Normally he In the antis SCOTES ONE.

## Can 007 Survive in Politically Correct '90s?

By Suzanna Andrews
New York Times Service

NEW YORK — In the 1960s and even into the '70s, Jack Kennedy was a political icon. The world of rock music was dominated by Boh Dylan and the Rolling Stones. And the movies had James Bond.

Bond, the cool, sexy spy created in the 1950s by the novelist Ian Fleming, would be nearly 80 years old today. But that little detail isn't stopping Hollywood from making its own version of Woodstock II. After a fivevear absence from the screen - and more than 30 years after he started jumping out of planes, skiing off cliffs and making love to countless women Bond is headed for a comeback.

Perhaps no recent Hollywood event has been hyped as much as the return of Agent 007, a character who has charmed at least two generations of moviegoers with his daring exploits. his quirky sense of honor and his combination of elegance, wit and menace.

Boys grew up wanting to be Bondlike; girls had to settle for the next best thing - meeting a man who wouldn't flinch when a tarantula crawled up his chest ("Dr. No") or could smile rakishly, as Bond did in "Moonraker," when he was being pushed out of a jet at 30,000 feet (without a parachute, of course).

In April, Timothy Dalton, who had starred in the last two Bond movies ("The Living Daylights" and "License to Kill") opted to resign his commis-sion. Three weeks ago, Pierce Brosnan. best known for his starring role in the television series "Remington Steele" and his recent appearance as Sally

Field's boyfriend in "Mrs. Doubtfire."
was selected to replace him.
"Goldeneye," the latest Bond movie,
will begin filming in the fall for release next year. The picture, about the period after the collapse of the Soviet empire. will feature the usual array of gadgetry and half-dressed women.

But is it possible that Bond, James Bond, is just a hit passé? In these earnestly correct times, will a cultural touchstone whose metier was wine. women and a license to kill still capture the imagination? Can the man who smoked 70 filterless cigarettes a day, drank his vodka martinis shaken (not stirred) and slept with just about every woman to come his way make it in the abstemious '90s?

After the Batmobile and "The

Europe

pressed with Bond's laser-equipped Aston Martin or his rocket-launching Montblanc pen? And with a wide array of Bond spawn (spymasters and former secret agents) on film, there are those who wonder if audiences need another one, even if it's the original.

Arnold Schwarzenegger will play a spy in "True Lies," which opens next month. Michael Caine plans to reprise his role as Harry Palmer, the Len Deighton spy in "The Ipcress File." Harrison Ford will take another turn at Jack Ryan, Tom Clancy's former CIA agent, in "Clear and Present due in August.

United Artists has snapped up the rights to the Quiller books about a British secret agent. And Miramax recently announced plans for a series of films hased on the British character Modesty Blaise, frequently described as the female James Bond.

The studio behind "Goldeneve" believes that audiences need another Bond and that they want the real thing. "We do not think that Bond is out-

dated," says Jerry Rich, executive vice

president for worldwide marketing at MGM/UA, which has released most of the Bond films. "We would be remiss if we didn't revitalize one of the greatest franchises in movie history." Michael G. Wilson, the producer of the Bond movies and the stepson of Albert (Cuhhy) Broccoli, the man who first brought Bond to the screen, be-lieves that Bond will not only survive but thrive in the '90s.

While acknowledging that Agent 007 is not what some people would call a perfect '90s hero — "If women are ooking for a guy who is good at changing diapers and ironing his own shirts. they won't find him in Bond" — he thinks that the end of the Cold War presents Bond with grist for new and suspenseful plots. In "Goldeneve," he says. "the governments will have been superseded by the warlords."

There may be many Bond-style movies out there, but in Wilson's view none match 007, "James Bond is still from the English public school system," ne explains. "He is a gentleman, a rough one, but well spoken and educated. And all that makes him different from the blue-collar American types in the films today. Bond is European." "Goldeneye," which will be the

18th Bond film, is named for Flem-Terminator," will audiences be im- ing's house in Jamaica and is a code

Pierce Brosnan, who takes over the James Bond role in "Goldeneye."

name for a World War II operation led by Fleming while he served in Her Majesty's Naval Intelligence Service.

The movie will be filmed in such Bondian haunts as St. Petershurg, the Caribbean and the south of France. The director is Martin Campbell. whose credits include the thriller "No Escape," and the co-writer is Michael France, who wrote the screenplay for the Sylvesier Stallone movie "Cliff-

The stakes are high. Since 1962, the Bond films produced by the Broccolis and MGM have brought in more than \$2 billion at the box office, according to MGM. A 17th Bond movie. "Never Say Never Again." starring Connerv. was released by Warner Brothers in 1983, despite efforts by MGM and the Broccolis to stop its distribution,

Asla

At the press conference announcing his selection. Brosnan, bearded, rakish and looking as if be were dying for a cigarette, appeared exquisitely Bondian. (After an initial flurry of publicity appearances, Brosnan flew off to a remote part of New Guinea to make a television movie: a spokesman said he was not available to be interviewed for this article.)

He told "Good Morning America" that the first movie he saw upon leaving Ireland as a boy was "Goldfinger" and that he was impressed by "this golden lady laid out in the bed naked."
It was very rakish. Very Bond. It

would seem that Wilson. Broccoli and his daughter Barhara Broccoli, who is also a producer, may have selected a perfect Bond, although perbaps too late in the game.

#### LANGUAGE

## The Frothing Gap, Yea Foamingly

By William Safire

WASHINGTON —For writers, the possibility of error — linguistic or factual — is infinite. We cannot be paralyzed by this. Check. recheck and then go ahead and take a chance; if you want for absolute certainty, you will never commit a word to paper.

This profundity grips me after a polemic I wrote in another space criticizing the critics of a theme park planned by Walt Disney Co. in Manassas, Virginia. Standing firm for artistic expression, even by Mickey Mouse, I had taken a pop at several columnists opposed to honky-tonk intrusion into the neighborhood of the battles of Bull Run. One of those popped was Jonathan Yardley of The Washington Post, a defender of the area's screnity who, I asserted, had written

"foamingly" on the subject.
In choosing that unfamiliar but readily understandable word to describe excessive vitupera-tion, I intended to call up an exaggerated mental picture of a maddened animal "foaming at the mouth." I rejected foamily, which looks too much like "family" and sounds like a dialect rendition of formerly, as well as frothily, from the expression, less common in America, of "frothing at the

Yardley, a veteran book critic unaccustomed to incoming fire, responded with an ah-hah! column centered on his discovery of a word error

by a professed word maven. Foamingly? Hunt as I may, hunt as I might, he modified danglingly, "it is a word nowhere to be found. Not in the American Heritage Dictionary of the American Language, Third Edition, that [sic] is kept handy to my reading chair, not even in the Webster's Third New International Dictionary of the English Language, Un-abridged, that [sic. again — try "which" when introducing a nonrestrictive clause] sits on a stand beside my desk. Foamily, yes, but foam-

ingly, no."

Well, then — is there such a word as foamingly? To put the question more accurately, has that adverb ever been cited in a reputable lexicon. as having been used before?

Yes. Three citations can be found in the Oxford English Dictionary, the most famous being the passage from the poet Robert Southey's 1801 narrative poem, "Thalaba the Destroyer," anepic about an Arabian hero fighting the forces of evil: "The winter torrent rolls / Down the deepchannell'd rain-course, foamingly." The revised Random House Second Unabridged cites that adverb as well.

The point here is that nobody can be absolutely, 100 percent sure when correcting another person's choice of words. Yardley checked two reliable sources, enough for an investigative reporter; isn't that enough for a critic?

No, it's not. Even bad he tried the current CD-ROM of the Oxford English Dictionary. the most thorough language source in the

world, and even if that data base did not have any citation (though, as we have seen it has a least three), that would not allow certainly some specialized dictionary or publication (Chemical Foaming Reactions Review or

(Chemical Foaming Reactions Review by whatever) might turn it up.

What to do? You can't check around invest it you're writing for a newspaper. So you that the plunge and hope the pool has been filled of the nobody cares enough to correct you in the second foamingly, it wasn't and somebody that fair this very moment, somebody is searching the O.E.D. for daughingly, the advert used allows to tease my fellow cultural commentator about dangling modifier. Relax it's these allowed.

dangling modifier. Relax, it's there, through a may be the first to use it since [61].

When I called previous usages of foundings at my columnar colleague. Yardiey's artention, he good naturedly replied. To always suspected that Southey was a pinko pennissivist.

Later on in my distribe about not stopping Disney from developing its Civil War them-park. I referred to the monient thomas lackson the Confederate general, was given his substitute.

Stonewall. It happened at first Manassas wrote with the confidence that comes from a lifetime's Civil War buffery, when an Airbania shouted to his troops. There stands Jackson like a stone wall — rally behind the Virginians! Recognizing that the Nitpickers League has a large Civil War contingent, I protected myself by adding that some historians think that the Ala baman's comment was not a compliment but a complaint—that the shouting general was sore at Jackson for remaining in position like a damned stone wall instead of charging the Union troops.

In comes this note from Vic Gold, the authorand political adviser. "Re your reference to Alabaman, the natives, I have learned to any surrous." prefer Alabamian, Ditto Louisianian?

O. K., I started to correct that in this space. when another blindsiding letter chite in this when another bindsiding letter cause in this from Gotchal Gangster Bruce Stewart of Chevy Chase, Maryland: Since General Rightmand Eliott Bee died shortly after making his famous remark (There stands Jackson like a some wall), we'll never know for sure whether he was criticating or commending Jackson What we'do know however, is that General Bee was from South Carplina not Alabama. Carolina, not Alabama

Be not discouraged; do not freeze at the prospect of possible error. As the finable rule directs: Learn from misteaks. E. J. Kaim, 4:

## Travel in a world without borders, time zones or language barriers.

@ 199+ ATAT

Imagine a world where you can call country to country as easily as you can from home. And reach the US, directly from over 125 countries. Converse with someone who doesn't speak your language, since it's translated instantly. Call your clients at 3 a.m. knowing they'll get the message in your voice at a more polite hour. All this is now possible with ADED

To use these services, dial the AT&T Access Number of the country you're in and you'll get all the help you need. With these Access Numbers and your AT&T Calling Card, international calling has never been easier.

If you don't have an AT&T Calling Card or you'd like more information on AT&T global services, just call us using the convenient Access Numbers on your right.

#### **AUST Access Numbers** How to call around the world.

Using the chart below, find the country you are calling from.

Dial the corresponding ADST Access Number omer service representative To receive your free wallet card of ABAT's Access Numbers, just dial the access number of
